## OAKLAND POLICE SURROUND MEN WHO ATTACK CANNERY

### SAN JOSE SENDS NEW APPEAL FOR U.S. TROOPS

Board of Education to Answer Request for High School Lads to Work in Cannery Plants

BOO TAKE PART IN NEW OUTBREAK

Several Are Injured in Riot; Twenty-Five Arrests Have Been Made; Soldiers Gone

Whether Oakland high school boys will be allowed to act as strike breakers in canneries and orchards at Santa Clara and San Jose will be determined at a meeting of the board of education, following a letter from San Jose today that 100 Oakland high school students, employed now at Sunnyvale, there to take the places of strikers.

Edward M. Hunter, city superintendent of schools, advised that he sent a telegram to the San Jose Chamber of Commerce, replying to a query whether Oakland boys working in T. M. C. A. camps had returned home, in which he stated that the board of education had agreed upon a measure by which these boys would be granted leaves of absence and given full credit for school work for a period of time to be decided later. At the time he despatched the letter, Hunter said, he was not aware that there was any intention of employing the boys to take the places of the strikers.

"Whether the fact that the boys, as has been stated, are to be used to fill the places of strikers will have any bearing on the school boy employment situation, I can not say and that will be decided upon by the board of education," said Hunter. "I understand that the board of education has agreed upon a measure by which these boys would be granted leaves of absence and given full credit for school work for a period of time to be decided later. At the time he despatched the letter, Hunter said, he was not aware that there was any intention of employing the boys to take the places of the strikers.

The War Department will be appealed to for troops to guard life and property threatened here by two thousand cannery strikers, City Manager Thomas H. Reed of San Jose, announced today in a meeting of city and county officials and citizens' committees.

SAN JOSE, Cal., July 26.—Twenty-five cannery strikers were arrested here early today in rioting, accompanying their attempts to force the Central California Cannery to shut down. More than 800 men were dispersed by police and scores of civilians deputized armed with pickhandles and clubs. Several of the strikers received minor injuries. The plant, located in the heart of a section known as "Little Italy," employs 500 men and women. Only a few of the strikers were seen today. They would work, but feared violence at the hands of the strikers who, the police say, threatened to burn homes of employees refusing to join in the walkout.

Six shots were fired into the home of Dominic Romano early today by cannery strikers in an attempt, authorities said, to carry out threats made yesterday to kill him and his family. Bullets passed over the bed where Romano, who is foreman of Lester Brothers' fruit dryer, and his wife were sleeping, a few feet from cots occupied by their six children. District Attorney Arthur Hays has issued fifteen warrants for the arrest of those believed implicated in the conspiracy to kill Romano, who had refused to join in the walkout.

Mrs. Paul Clark, president of the San Jose Women's Club, who marshaled several hundred women to work in the fruit canneries to give moral support to the intimidated Italian women and actual assistance in a critical time to the cannery, was reported to be losing \$75,000 a day by the suspension of operations, is taking steps to augment her force.

Free charges that the I. W. W. has injected itself in the present strike situation to the extent that the affair is out of the hands of the Federal Labor Union, which started it. Strike leaders, particularly E. B. Mercader, organ of the union, denied this charge with some heat. He said that the I. W. W. element, which he charges, is at the helm in the strike, will attempt arson and other crimes against the cannery plants unless they are guarded by soldiers.

### Solons Charge Mail Is Opened; Probe to Follow

WASHINGTON, July 26.—Direct charges that their mail had been opened in transit while in charge of the postoffice authorities are made to the House committee on expenditures in the Postoffice Department today by Representatives Teague and Gallinger of Massachusetts. These charges were originally made by Thomas F. Flaherty, secretary of the Postal Employees' Association, who claimed that the mail of Representative Teague was tampered with because he opposed the efforts of Postmaster General Burleson to build the pneumatic tube system of mail transfer in Boston abolished and that mails moved from the depots and the sub-stations to the postoffice in automobile trucks.

Today the two Representatives declared that part of their mail had been opened and afterwards resealed and delivered. As a result of the charges it is expected that the committee will institute a complete investigation to determine whether the tube and if so the reason for the action by postoffice inspectors or employees.

### Woman's Jury To Hear New Mooney Case

SAN FRANCISCO, July 26.—Mrs. Rena Mooney, acquitted yesterday on one of ten charges of murder in connection with the preparation day parade bombing, will be tried again by a jury composed of as many women as possible, District Attorney Fickert announced today.

Fickert's statement that he would seek a jury of as many women as possible is in line with a new State law making women eligible for jury service on the same status as men. The law goes into effect Saturday.

"I am satisfied that any of the men defendants would have been convicted on the same testimony that we presented against Mrs. Mooney, Fickert declared.

It is estimated at the Hall of Justice that Mrs. Mooney's trial cost the county \$25,000.

### TO FIGHT RECALL

Fickert stated today that he would fight to maintain the recall law as strongly as possible. He asserted that circulators of recall petitions have accosted pedestrians on the streets, asking for signatures and representing the petitions to be aiming to exclude Japanese from California.

Basing their application on the verdict of the 12 substantial citizens who yesterday declared her not guilty of participation in the preparedness day parade bombing, Fickert said, Mrs. Mooney will ask the opinion of her counsel, Attorney Thomas M. O'Connell, who was the only one of the battery of lawyers who was early at his desk today.

On the other hand District Attorney Charles F. Fickert said that he would oppose any effort to bring about Mrs. Mooney's discharge and that he proposed to try Israel Weinberg and Edward Nolan as soon as the necessary machinery could be put in motion. The latter two men were arrested and reported to have cost the county in the neighborhood of \$30,000.

There are still some eight indictments pending against her in connection with the deaths of others of the bomb victims. The case against Israel Weinberg, according to the theory of the prosecution, one of the essential conspirators, is to be the next one. District Attorney Fickert would not say just what he intended to do with Mrs. Mooney, who is again in the county jail pending his decision. New trial will be asked for Tom Mooney.

Chief counsel for the defense, Maxwell McNutt, said today that an immediate demand would be made for a re-trial of Thomas J. Mooney, Mrs. Mooney's husband, and all of the other preparedness day defendants. Mooney is in the county jail pending an appeal from a conviction and sentence of hanging. Warren K. Billings, a fellow-defendant, has been sentenced to life imprisonment. Edward D. Nolan, another of the alleged participants in the bomb conspiracy, was sent without trial. Indictments are still out against all of the defendants and for Alexander Berkman, recently arrested for furthering anti-draft riots in England.

The Manx hotel bill, which covered playing cards, magazines and checkers, was \$309.75. About \$500 more was spent on theater tickets and ball games; \$250 went for automobile rides and \$648 for luncheons. The bill of court reporters and stenographers amounted to \$6000. About \$2000 in salaries has been paid the twelve jurors.

### MAYOR 'MAD' AT COUNCIL; WON'T 'SIT IN'

Gave Power of Authority, He Says, and Then Took It Away—Will Take Position Aloof

Transportation Company and Commissioners Are Objects of "Peeve"; Will Not Dispel

"I don't want to play in your yard; I don't like you any more. You'll be sorry when you see me sliding down our cellar door."

This refrain of a song popular twenty years ago when John L. Davis was mayor of Oakland was brought vividly to remembrance this morning in the city council, when his honor, now entering upon the third year of a term of office, announced that he will attend no more conferences between the commissioners and the San Francisco-Oakland Terminal Railroad.

He is not only aggrieved at the dilatory tactics of the transportation company, he said, but he is "mad" at his colleagues because they first gave him power to exercise his authority and then took it away from him yesterday when they turned down his resolution rejecting the whole matter from consideration of the State Railroad Commission.

The mayor's pouting expression took the form of a resolution introduced by him, read by Resolution No. 14,321 N. S., adopted February 12 of this year, empowering him to use his authority to secure a speedy settlement of the street paving situation.

### SEES NO REASON.

"I see no reason for this action," spoke up Commissioner W. H. Edwards. "When you refer anything to me, I expect to report back to the council."

"This is entirely different," complained the mayor. "After the transportation people had been given a half and a half to do this work and had done nothing, I continuously passed a resolution giving me limited power to act. There was no chance to act until last Monday when the decision of the supreme court in the Los Angeles cases was handed down. Then when I wanted to act and introduced a resolution yesterday referring the controversy to the Railroad Commission, you take the matter out of my hands by arranging for conference."

"Now I am through with this, by and by," he said, querulously. "Some one may say that the mayor had power to act but held a conference instead."

### NO OFFENSE MEANT.

Commissioner Edwards: "I want to say that there was no desire on my part to offend in any way, when I voted against your resolution."

Mayor Davies: "I have nothing to say about what you did."

Edwards: "It was my prerogative to vote for the resolution."

Mayor Davies: "I wasn't your prerogative after you had given me power to act. I tell you that I will not confer any more with the railroad people."

Edwards: "By voting for the resolution yesterday you implied that you would."

Mayor Davies: "I don't care how I voted. I won't do it. I have listened to nothing but hot air."

Edwards: "We are not acting like men in this matter. It is child's play."

Mayor Davies: "After the company had prevailed on us to remove the tracks, they put the money coming to them as the consequence of that removal into street paving?"

Edwards: "We never had any conferences over that."

Mayor Davies: "I had half a dozen."

Edwards: "I was never asked to attend one of them."

Jackson: "Nor was I."

The mayor's resolution rescinding the former empowering resolution was then put to the vote and adopted. Commissioner Jackson voting "No."

Commissioner F. F. Morse's resolution suspending the collection of warfarfare at the pleasure of the council was laid over until Monday.

A communication from James P. Montgomery, suggesting that the city handle the collection of garbage as a municipal department, was filed without comment.

### TO GUARD TROOPS

WASHINGTON, July 26.—The committee on training camp activities appointed to safeguard troops against moral hazards and provide wholesome recreations, with Raymond B. Fosdick of New York as chairman discussed plans for work today.

Members of the committee were announced as follows: Walter Chandler, New Haven, Conn.; Selah Chamberlain, San Francisco; E. T. Meredith, Des Moines, Iowa; Mrs. Finley J. Sheppard, New York; Mrs. Helen Ring Robinson, Denver.

### Emeryville Scene of Demonstration by Supposed I. W. W.'s

Two hundred men supposed to be I. W. W.'s arrived in Oakland on a Key Route train at 3 o'clock this afternoon and marched to the Griffin & Skelly Company cannery at Hallock and Fortieth streets with the avowed intention of calling out the cannery employees and closing down the plant. The Oakland police were notified by a patrolman who intercepted the supposed agitators, and twenty-five patrolmen armed with shot guns were rushed to the cannery, reaching there about the same time as the mob.

After some threatening shouting the men were driven from in front of the cannery into a vacant lot adjoining where, cowed by the armed police, they made no attempt at violence. Late this afternoon the 200 were still assembled in the lot under the eyes of the police who are believed to have control of the situation.

Superintendent Wilson of the Griffin and Skelly Company stated at 3 o'clock that he anticipated no trouble and was unaware that I. W. W.'s were marching on the cannery. The men arrived soon after but before they could start any demonstration calculated to cause disaffection among the workers were escorted from the cannery precincts by the police who arrived at the double quick in patrol wagons. With a large crowd of shouting and gesticulating men grouped in front of the cannery gates, the situation for a time looked ominous.

### War Outlook Most Serious, Says Borah

WASHINGTON, July 26.—The war situation, particularly with reference to developments on the Russian front, was the subject of a despatch from Petrograd to the Post. Never in the war has Russia put at risk such enormous armies. British and French gunners, flying machines, aviators and British armor (the tanks) were added to the unprecedented technical strength of the Russians themselves to make this particular front equal to anything.

The artillery was planted in such admirable nature and prepared positions as amounted to the ideal. There were places where the artillery lay in absolutely dead ground not 300 yards from the enemy trenches. Big guns were ideally placed, thanks to the character of the terrain.

Information regarding the guns of the Eleventh Army almost staggers belief. It appears that the infantry shot down their own guns in order to get their horses or shot down the horse in reverse and they retreated, leaving practically all the artillery in the Eleventh army in the enemy's hands.

### EIGHTH ARMY MENACED.

As far as the artillery and technical appliances of the Seventh and Eighth armies are concerned, there is also no hope of their being saved. The Germans were already, a couple of days ago, across the best road on the shortest line of retreat. The rate of the enemy's advance on the western front has been accelerated and the gun positions are behind the line now occupied by the Germans. It is becoming an exceedingly anxious question whether the Eighth army will succeed in getting away at all, but it is thought that the British and French armor will be able to cover the retreat in Galicia and later co-operated with the Russian cavalry in front of Tarnopol.

The despatch to the Post says that under General Korniloff's drastic measures to restore order in the Eleventh army, one whole division was blown to pieces by their own artillery to avenge the insults which all level troops and especially the artillery have been silently enduring for the past four months from these traitorous assaults.

The Russian retreat has become a great sweep eastward over an area from the upper Serezh river near the Galician border to south of Tarnopol, a distance of approximately 115 miles. Nowhere on this line of withdrawal have the Slavic leaders been able to check the pursuing enemy, though points the Russian rear guard troops are fighting bravely.

Tarnopol, according to official admission from Petrograd, was given up by the Russian guards without a fight. Stanislaw and Nadvorna, both in Teuton hands and in the middle of the line the Austro-Germans are closing in on Buzsack. Practically all of General Brusiloff's gains of last year have been or are rapidly being sacrificed.

### DUTCH TO PLEAD

THE HAGUE, July 26.—"We are going to America to clear up what we believe is a misunderstanding of our position," said J. E. Van Der Hoeven Van Cordt, member of the mission which is being sent to the United States to plead the cause of Holland in the export question, in a statement made here today. "We shall be prepared to show the United States government and people, by facts and figures the real situation," he continued. "I believe it is in the interests of America and her allies that our traffic with America shall continue."

### BIG WAR BUDGET

WASHINGTON, July 26.—"Not five billions but nearly six is the total needed for war purposes," Secretary of the Treasury McAdoo late today, told the House of Representatives. He presented to the speaker a budget calling for \$5,917,878,347 for prosecuting the war.

### WILL FIX PRICES

LONDON, July 26.—England is going to fix prices for necessary foods to prevent speculation and hoarding of necessities middle men. Lord Rhonda, food dictator, announced his determination to take such action in the House of Lords today.

### ROMANIAN MAKE GAINS; AID RUSSIA

Gigantic Task Before Kerensky to Rehabilitate Slav Troops Hammered Back by Germans

Appalling Loss in Artillery and Supplies Suffered by the Eleventh Army in Retreat

BULLETIN. PETROGRAD, July 26.—Two thousand Teutonic prisoners have been taken by Rumanian and Russian troops in their offensive in the Carpathians and Rumania, today's official statement asserted.

The Rumanians took 1000 of the enemy with thirty-three guns and seventeen machine guns. The Russians captured the same number of troops and took twenty-four machine-guns.

The Carpathian offensive of the Russo-Rumanian troops has now reached such strength that it was hoped here the pressure there on the Teuton line would force some let-up in the drive against General Korniloff's troops in the Stanislaw-Tarnopol sector.

BERLIN (via London), July 26.—The Germans have captured the Galician towns of Buczacz, Tlumacz, Olynia and Delatyn, the war office announced today. The Russians also are said to be retreating in the direction of Czernowitz, the capital of Bukovina.

### APPELLING LOSSES.

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE. LONDON, July 26.—An appalling blow to the Russian front, the Russian collapse given in a despatch from Petrograd to the Post. Never in the war has Russia put at risk such enormous armies. British and French gunners, flying machines, aviators and British armor (the tanks) were added to the unprecedented technical strength of the Russians themselves to make this particular front equal to anything.

The artillery was planted in such admirable nature and prepared positions as amounted to the ideal. There were places where the artillery lay in absolutely dead ground not 300 yards from the enemy trenches. Big guns were ideally placed, thanks to the character of the terrain.

Information regarding the guns of the Eleventh Army almost staggers belief. It appears that the infantry shot down their own guns in order to get their horses or shot down the horse in reverse and they retreated, leaving practically all the artillery in the Eleventh army in the enemy's hands.

As far as the artillery and technical appliances of the Seventh and Eighth armies are concerned, there is also no hope of their being saved. The Germans were already, a couple of days ago, across the best road on the shortest line of retreat. The rate of the enemy's advance on the western front has been accelerated and the gun positions are behind the line now occupied by the Germans. It is becoming an exceedingly anxious question whether the Eighth army will succeed in getting away at all, but it is thought that the British and French armor will be able to cover the retreat in Galicia and later co-operated with the Russian cavalry in front of Tarnopol.

The despatch to the Post says that under General Korniloff's drastic measures to restore order in the Eleventh army, one whole division was blown to pieces by their own artillery to avenge the insults which all level troops and especially the artillery have been silently enduring for the past four months from these traitorous assaults.

The Russian retreat has become a great sweep eastward over an area from the upper Serezh river near the Galician border to south of Tarnopol, a distance of approximately 115 miles. Nowhere on this line of withdrawal have the Slavic leaders been able to check the pursuing enemy, though points the Russian rear guard troops are fighting bravely.

Tarnopol, according to official admission from Petrograd, was given up by the Russian guards without a fight. Stanislaw and Nadvorna, both in Teuton hands and in the middle of the line the Austro-Germans are closing in on Buzsack. Practically all of General Brusiloff's gains of last year have been or are rapidly being sacrificed.

### REVOLT PUT DOWN.

PETROGRAD, July 26.—"Arriving at its point of firm repression of all insurgent elements, the government today forced surrender of an ammunition factory at Sestroretsk, which had been one of the main bulwarks of the Bolshevik counter-revolution party. Cosacks, armed with machine-guns, surrounded the building and the workmen inside were ordered to submit. After half an hour's priceley, they marched out, depositing their arms with the government troops.

Some leaders were arrested, but the remainder were freed.

The provisional government today decided to hold a conference shortly.

### Nationalist Member Is Ejected

LONDON, July 26.—Lawrence Ginnell, independent Irish Nationalist member, was forcibly ejected from the House of Commons today and suspended from his seat as the result of a sensational charge which he leveled against the government.

He declared to the House that the authorities were plotting to take his life in order to manufacture a conspiracy which they could blame on Irish Sinn-Feinners.

### RACE RIOT RAGES

CHESTER, Pa., July 26.—Three men were shot, scores beaten and fifty-five arrested in a series of race riots adjacent to the negro district here last night. About a dozen rioters had to be taken to the hospital.

The riots were the outgrowth of hearings here yesterday of four negroes who were held without bail on the charge of stabbing to death a white youth.

### American Legion Wins Victory, Three Members Are Slain

LONDON, July 26.—The American legion—Canada's Little Vanguard of American boys—won their objective in the latest fighting on the Canadian front, but paid in the loss of three members. Unofficial lists today gave the three killed as:

Lieut. A. R. Minard of Boston. Lance Corporal E. E. Monroe of Charleston, W. Va.

Private C. Winham, machine gunner, of Buffalo, New York.

"We went over at exactly 7 a. m.," said Lieutenant Frank H. Burr of Columbus, Ohio, today, describing the action. "Everything went splendidly, not a shot of Russian guardman myself. He had a brother in San Bernardino, California, and couldn't get over his surprise that there were Americans in Canadian uniform."

Burr said Minard, Monroe and Winham were killed by shell fire. Minard was wounded in the head, arms and legs and died in 24 hours. Burr was one of sixteen officers who escaped without a scratch.

Lieutenant Harry Nelson of Detroit, a minister's son, was shot in one arm and Lieutenant Max Foster of Traverse City, Mich., a Cornell man, was hit in the back by a shell fragment. Lieutenant Fred Falconer of New York, was slightly wounded in the face and neck.

Corporal F. McHargue, a Kentuckian, formerly of the United States Coast Artillery, suffered a slight head wound and E. M. Keenan, of Seattle, formerly of the University of Washington, had a painful shoulder wound.

### SHATTERED SLAV ARMY MAY YET BE WARFACTOR

Administration Leaders and Staff Officers at Washington Place Faith in the Premier

ECONOMIC FAILURE IN GERMANY AWAITED

Teuton Front Impregnable, But Starvation May Bring End to the Long-Drawn Conflict

By John Edwin Nevin, International News Service Staff Correspondent.

### Germans Lose Heavily, But Gain Trenches

PARIS, July 26.—Suffering terrible losses, German troops nevertheless succeeded in a desperate attack last night in occupying part of first line French trenches east of Hurbelise, to the south of La Bovelie. The official statement today declared the attack was in great force.

The German assault was over approximately a three-mile front in the same sector which has been battered unceasingly and unavailingly by the crown prince for the last week. The French here held the dominating positions on the Chemin des Dames.

BERLIN (via London), July 26.—Dominating positions on the Aisne front northwest of Hurbelise, were captured today by the Germans, the war office announced. The French trenches on a front of 1800 metres and 400 metres deep south of Allies were stormed, the statement says. Violent artillery fighting continues on the northern end of the Franco-Belgian front from the coast as far as 125.

LONDON, July 26.—Another succession of successful raiding enterprises was carried out by the British during the night, the war office announced today. These actions were confined mainly to the Armentieres sector of the Franco-Belgian border, where German trenches were entered and a number of casualties inflicted on their garrison.

"We made a successful raid last night southeast of Armentieres," says the official report. "There is nothing of special interest."

PARIS, July 26.—During the week ending at midnight July 22 not a single French vessel over or under 1000 tons was lost. Six French merchantmen were attacked unsuccessfully during that time by submarines. Ships of all nationalities numbering 1083 entered port and 937 departed.

ROME, July 26.—Two Italian steamers were sunk and one small sailing vessel was damaged during the week ending at midnight July 22, says an official announcement. Five hundred and ninety-three vessels with a gross tonnage of 338,815 arrived and 560 of a tonnage of 492,450 left port.

LONDON, July 26.—The American sailing vessel August Welt, 1221 tons, was sunk last Saturday. The crew was saved. No details of the sinking have been received.

### PROBE FLAG PRICE

WASHINGTON, July 26.—Legislation to protect the public in war times against unreasonable prices "not only when such prices result from unlawful agencies but also where they arise merely out of abnormal conditions," was recommended to Congress today by the Federal Trade Commission in a report on its investigation of the "flag trust."

The commission found the price of American flags jumped more than 300 per cent since the outbreak of the war and that many new manufacturers entered the field hoping for excessive profits. An attempt was made, the commission charges, to fix prices 100 per cent over the old prices. This attempt was not a success but it has been called to the attention of the Department of Justice.

### NATIONALIST MEMBER IS EJECTED

LONDON, July 26.—Lawrence Ginnell, independent Irish Nationalist member, was forcibly ejected from the House of Commons today and suspended from his seat as the result of a sensational charge which he leveled against the government.

He declared to the House that the authorities were plotting to take his life in order to manufacture a conspiracy which they could blame on Irish Sinn-Feinners.

# APPALLING LOSS STUNS RUSS ARMY

(Continued From Page 1)

at Moscow with the principal representatives of all social organizations of the nation, "to discuss the country's position, problems and future."

The organizations will include peasants, soldiers and workmen and "Cossack" congresses.

Decision to confer on matters of peace and disarmament at Moscow instead of Petrograd may be significant. At the height of the Petrograd riot a week ago it was reported that the government was considering removal to Moscow.

The commander-in-chief and the commanders of the various armies at the front having insisted that restoration of discipline in the army inevitably would necessitate infliction of the death penalty, the government has agreed unanimously to restore capital punishment. The measure is of temporary character, to have effect until the end of the military operations. The inquiry into the recent disorders here is being continued energetically under the supervision of the public prosecutor. The authorities are taking measures to discover and bring to justice all organizers of and participants of the revolt.

Michael Stakovich, governor-general of Finland, has resigned.

## SPY IS CONDEMNED

PARIS, July 26.—A military court today condemned to death for espionage a dancer known as Mata Hari, before her marriage was Marguerite Zell. She was born in the Dutch Indies and claimed Dutch nationality.

# "Legion of Death" Wins Honor Women Face Enemies of Russia Killed, Wounded, In First Fight

By WILLIAM G. SHEPHERD,  
United Press Staff Correspondent.

PETROGRAD, July 26.—Russian women have laid down their lives on the battlefield of democracy.

Against the report of traitorous retreat of some of the Russian male divisions before the Austro-Germans came word today of how the women's "Legion of Death" on the Vlna front fought and died in repulsing an enemy attack.

The first time in the history of the great world war, casualty reports today chronicled the death and injury of women in the trenches.

Five women of the "Legion of Death" were killed and wounded in this first engagement in which they were called upon to resist with arms the invasion of their country.

## OFF FOR THE FRONT

The "Legion of Death" left Petrograd barely two weeks ago, its girl soldiers garbed in trousers, puttees and tunics a trifle longer than the usual army coats. They wore the regulation army caps, over bobbed hair, and carried packs only a trifle lighter than those of the regular Russian soldiers.

They entrained amid the proud tears of their families, soberly, like veterans. The girls were of Russia's best blood, of the strong stock of some of the city's intellectual, financial and social leaders.

Most of them were students at universities. Some were wealthy. All pledged to "do or die" for Russia.

Today Petrograd proudly realized the Russian women were capable of the supreme sacrifice of their lives for the new democracy. Except for the women of Belgium, none has suffered so in the years past as those of Russia. Through the years of the czar's autocratic grip they were ground under foot. When the war began their men were taken for the

czar's services. No word ever reached them from those who left in the Russian army's ranks. No kindly government told them of their fate. At home, only the Zemstvo—citizens' organizations—kept many women from starving. The government had no heed for their fate.

## MEN ARE SHAMED

Then came the revolution and all was swept aside. Russia's women, trampled through centuries of the iron heel of autocracy, sprang to the opportunity for the supreme sacrifice of life to cement their new liberty. The "Legion of Death" was the uttermost exemplification of this spirit of sacrifice.

One other thing that gave Petrograd pride in the women fighters was that they were in action when Russia's troops were victorious. They speculated on the possibility that it was this small unit of Amazons that shamed some of the insecure Russian men fighters into such fierceness of purpose that the "Legion of Death" was.

Great preparations were in progress here today to care for the wounded girl soldiers. It was expected that those who could be moved would be brought here immediately from the front. Meantime reports from the front said those whom Teutonic bullets had struck were bearing their suffering with stoical fortitude.

# IMPURE DRUGS, FOOD CONDEMNED

Among the various food articles condemned at the meeting of the State Board of Health, July 25, at Sacramento, as violations of the pure food and drug act, are bottles of rock salt, and yams. In the place of yams was found in some cases sugar and water, and in others nothing but water, making the contents of the bottle labeled "rock and yam" nothing more than rock and water.

The health board also condemned a salve which is labeled "This salve will heal anything." The board feels that while this salve may have wonderful healing powers, it is carrying matters a little too far to claim that the salve has the supernatural powers of "healing anything," according to Director Lea of Berkeley.

It was also found by the board that in some cases where fresh strawberries were sold in drawers, the large fresh berries were placed on the top layer to attract the buyer and that the lower layers consisted of immature and decomposed berries.

The bureau of foods and drugs of Berkeley, under the direction of E. Lea, have referred the following cases in Oakland to the district attorney for prosecution. The board charges C. W. Gallagher with the sale of eggs which were decomposed and rotten. Hunt, Hatch & Co. have been charged on two counts: adulterated oranges, which were badly frozen, and adulterated so-called fresh strawberries which consisted of immature and decomposed berries with the exception of top layers.

Penney Brothers have been charged with the sale of an adulterated and inferior substitute for blackberry brandy. Fred Sandelin has been accused of the sale of Sandelin's Klon-dyke Salve which is mislabeled.

Adulterated deviled and smoked salmon is the charge referred against A. Van Erp. The board asserts that the salmon is filthy and decomposed animal substance. Wishart's has been charged with the sale of citrate of magnesia which is adulterated and does not conform to the standard.

# QUOTA REDUCED FOR DISTRICT 3

The quota of men to be drafted from Exemption District No. 3, which includes Emeryville, Piedmont, Albany and a part of Berkeley has been reduced from 112 to 34, according to a telegram received today by Walter S. Brann, member of the board, from Adjutant General J. J. Boree. The reason for the cut is not known other than that it might have been due to an error in the original figures.

The apparent mistake in the figures was noticed by County Clerk George Gross who wired the adjutant general yesterday and the telegram to Walter S. Brann is understood to be an answer to Gross' inquiry.

According to Gross it is expected that reductions of quotas in all exemption districts in the county are likely until adjustments in the regular army and national guard are closed to meet whose names came up in the draft. As men enlist in the guard or regular army the quota in the district in which they live is correspondingly reduced.

The enlistment of nearly 200 men in Battery E, the 10th California Field Artillery has materially aided in the reductions that have or will be made in this county.

# OAKLAND MAY GET ACETONE PLANT

Oakland may have a new acetone plant if certain negotiations now under way are completed. Announcement of this possibility was contained in a brief address before the Oakland Rotary by Dr. S. E. Frank of the Catalytic Chemical Company.

Acetone is used in the manufacture of iodiform and chloroform as well as other chemical reagents and is one of the most valuable products of the medicinal world. It is understood that a considerable sum is to be used to establish the plant in Oakland. The plant is made in quantities and shipped to the war zone direct, according to present plans. Full details will be given our some time next week according to Dr. Frank.

# GIVEN TWO YEARS

Mrs. Georgia Meyers, convicted by a jury of assault with a deadly weapon upon her husband, was this morning sentenced to two years imprisonment in San Quentin Penitentiary by Superior Judge Fred V. Wood.

Mrs. Meyers, following a quarrel with her husband six weeks ago, shot him three times in the back without seriously injuring him.

# ATTORNEY FINED

R. E. Hewitt, the Oakland attorney convicted of battery on 16-year-old Gertrude Williams, daughter of his client, was this morning sentenced to pay a fine of \$20 or spend ten days in jail.

Hewitt is to take an appeal to the superior court and still out on bail.

# FOR HIGH SCHOOL

All the students of the Oakland high school should report at the school at 9 o'clock on Monday morning. New students from other schools will then be given their entrance examination, and the old students are asked to make their appearance at the same time.

# INVESTIGATE DEATH

Police investigation, at the request of a coroner's jury, will be held into the suspicious circumstances surrounding the death of Mrs. Antica Markovina, 34 years, following an inquest today in which the jury after finding she died from hemorrhage during an operation, gave it as their belief that an attempt to perform an operation previously was the cause of the woman's condition.

# RELIEF CORPS TO MEET

Veteran soldiers will be guests at an entertainment under the auspices of Appomattox Relief Corps in Memorial Hall Saturday night. Miss Sophie Wilson, known as "El Cerrito's favorite," will be the special attraction and will sing patriotic songs. A full attendance of the "old guard" is expected.

# CONFESSES PLOT TO KILL HUSBAND

CHICAGO, July 26.—Walter Howard, a boarder at the home of Randolph Ender, wealthy coal merchant, today confessed to the police that he and Mrs. Ender had plotted to kill her husband for his \$60,000 estate and marry.

Howard, 38, Ender and Mrs. Anna Froelich, a cousin of Mrs. Ender, were arrested last night.

Mrs. Ender, who is 20 years younger than her husband, and pretty, sued him for divorce a few days ago, alleging that "his pro-German proclivities did not jibe with her love for the Stars and Stripes."

She charged that on July 20th, draft day, Ender became so enraged because of the number of Americans who were being drafted to fight his fatherland that he came home drunk.

Ender was found later in his bedroom, with the gas turned on. Mrs. Ender said he turned it on while intoxicated, not knowing what he was doing. Police say someone else turned it on, knowing what was being done.

## ARRAIGN WOMEN

Mrs. Margaret Meyers, who is charged with having instructed her 16-year-old son to squirt acid upon two deputy sheriffs who came to serve eviction papers upon her at 210 Broadway avenue, was arraigned this morning before Justice of the Peace Frank Mitchell Jr., of San Leandro, sitting for Police Judge George Samuels. The defendant stated that she had not yet secured counsel, and the case was continued until August 1 that she may prepare her defense. Mrs. Meyers asked permission to see her son, who is now in the Detention Home, and was informed that she could arrange that through her attorney.

## STOCKMAN DIES

SAN MIGUEL, Cal., July 26.—James J. Mahoney, wealthy ranch owner in San Luis Obispo county with extensive cattle interests in Nevada, is dead here today.

# START WORK ON FOOD BILL PUZZLE

WASHINGTON, July 26.—The food control bill conferees began today their wrestling with the most formidable and complicated difficulties ever laid before a congressional conference committee.

Here are some of the things they must decide:

The prohibition question. The price of wheat.

Whether to place food control in the hands of Herbert C. Hoover, exclusively, or a food commission of three.

Whether to back up the president in his objection to the creation of a joint congressional war committee.

Whether to place all business, or only that in interstate commerce, under license control.

There are many other knots to be untied. While the greatest pressure is to be exerted to hurry a conference agreement, it is doubtful whether the measure will be in the president's hands within ten days. Any conference agreement will meet with opposition when it is referred back to the Senate and the House. The conferees cannot hope to satisfy everyone. The best they can do will be to frame a bill that will meet with the minimum of objections.

Evidence grows that the Smoot whisky commanding amendment will be thrown out. The "drys" deny they have entered into a trade for its elimination in return for which they will be permitted to bring up the Sheppard nationwide prohibition resolution.

Many leading "wets," however, have indicated their willingness to allow the Sheppard resolution to come to a vote. They believe it will be made in one or two years before the "drys" can win the 36 states necessary to make the whole nation "dry" and they regard the Sheppard resolution as an easy way out of the vexatious prohibition tangle that is constantly bobbing up in Congress.

## BOMB IS EXPLODED

CHICAGO, July 26.—A bomb explosion in the boiler room drove scores of guests from the Elsmarck Hotel early today. The damage is estimated at \$1000.

## TO STRENGTHEN THE NERVES.

Take Nervous Acid Phosphate. When nervous, tired or restless, it restores the system and induces refreshing sleep. Try it. Advertisement.

## Remove Those Hairs

Roots and All

(Absolutely New Method)

The new way to remove disgusting growths of superfluous hair, roots and all, will astonish and delight you. You never saw or heard of anything like it before. It is not a depilatory and not electrical. You simply stick a stick of phosphate from your drugstore and follow the simple directions at home. In a few seconds you have removed the offending hairs, roots and all. With your own eyes you see the roots come right out. Phelactine is absolutely odorless, non-poisonous and perfectly odorless. Satisfaction guaranteed or money refunded. Advertisement.

## To Quickly Remove

Ugly Hairs From Face

(Beauty Notes)

Pearly-destroying hairs are soon banished from the skin with the aid of a delatone paste, made by mixing some water with a little plain powder. This is spread upon the hairy surface and left for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be taken to be certain that it is delatone you buy. Advertisement.

## EDITORIAL

The writer visited a certain moving picture theater the other night and was told at the door that a certain picture would be shown at a certain time.

Upon looking up the manager, he was surprised to receive not only an instant return of his money, but sincere thanks for calling attention to the mistake.

It is a pleasure to do anything we can to recompense you," said the manager. "Of course we are not infallible and the doorman made a mistake, but we do think you for calling our attention to the matter and trust that you will always favor us with the opportunity to correct ourselves whenever you are dissatisfied."

That is the spirit under which we are endeavoring to run our store.

We make mistakes. And you make mistakes. Everybody makes mistakes.

But the biggest mistake any of us can make is the multiplied mistake of refusing to acknowledge our faults or neglecting to correct them.

You do every one connected with our store a favor when you give the management the opportunity of correcting a wrong because it means improvement somewhere.

## HOW ABOUT YOUR SUPPLY OF STATIONERY?

Are you interested in purchasing any stationery?

We have just received a fine new stock of Crane's Highland Line in all the new shades of both paper and correspondence cards, with envelopes to match.

We know of nothing better in moderately priced papers. A box of 24 cards or sheets, and 24 envelopes.

## NOW IS THE TIME TO GET AFTER THOSE ANTS

Two Methods Are Necessary If They Infest Your House.

There is no necessity of allowing Argentine Ants to infest your house and garden.

If this pest gets the best of the fight it is probably because you have neglected to combat them in the manner advised by the University of California.

Argentine Ants should first be driven out of the house into the garden. To accomplish this use Anti-Ant in the house and Argo-Ant in the garden.

Anti-Ant is distasteful to them—it is a repellent. They leave the premises when it is put out, but they are not poisoned by it.

Argo-Ant Polson, on the other hand, is sweet and attractive to them. They go from the house into your garden in order to get this sweet poison. The worker ants carry the poison to their nests and unknowingly poison the queens, thus ultimately destroying the colony.

Argo-Ant Polson is purposefully made weak so that the worker ants will not be poisoned themselves in carrying the substance to the nests.

The entire subject has been given careful scientific attention and our advice and preparation follow implicitly the instructions of the men who have scientifically studied the matter.

## HAVE YOU EVER USED VERGO VIOLET TALCUM

In Our Opinion It is the Finest Talcum Made.

We carry at least 75 different brands of Talcum—in fact, every brand manufactured for which there is any noticeable demand.

Of all these talcums there is one that we believe to be as fine as any and superior (when the price is considered) to all.

This is Bowman's Vergo Violet Talcum, manufactured in our laboratories.

It sells at 25c a can. These are large cans, so that quantity and quality considered you get full money's worth for the place to get it.

Suppose you try it.

If you do not agree with us that it is the best talcum you have ever used we will give you your money back and you can then purchase your other favorite brand for we have them all.

BEST WITCH HAZEL

The best grade of Witch Hazel is the only kind we carry, and if this is the kind you want then Bowman's is the place to get it.

Like many other articles, Witch Hazel comes in several average grades and it is practically impossible for the average individual to tell the poorer grades from the better qualities.

## LEATHER GOODS, GRIPS AND SUITCASES

Real Quality Here—The Kind That Wear and Wear.

These are good times to be careful in buying leather goods.

Good leather is difficult to find and the temptation to manufacture from poor materials is too enticing for some factories to overlook.

We purchase these stocks very, very carefully, and only from makers

# HOSPITAL UNIT FORMED BY AD MEN

The Pacific Coast Advertising Men's Association closed its convention with the selection of Portland as the meeting place for 1918 and the election of the following officers for the ensuing year: President, Charles E. Berg, Portland; vice-president, J. J. Wadley of Los Angeles; second vice-president, Dave Matthews of Stockton; third vice-president, J. C. Thompson of San Diego; secretary and treasurer, William P. Stunborg, Portland.

The establishment of an ambulance unit fully equipped for service on the French front was undertaken by the delegates at the closing session of the convention. Each of the 250 members of the association were pledged to contribute \$2 a month for three months to make the plan possible. The unit when completed will represent an equipment of \$15,000 and will be known as the Pacific Coast Ad Men's Ambulance Unit.

**PLAN OUTLINED.**  
The plan was explained by George Cummings of Oakland, retiring secretary. Al Lavenson immediately pledged \$100 toward the fund as did H. F. Lindley of Sacramento. Other contributions came in before the close of the session sufficiently to assure the co-operation of the rest of the members in making the unit a possibility.

The following executive committee was chosen as the final work of the 1917 convention: W. W. Gibbins of Oakland; C. H. Tallant, San Francisco; Wallace P. Farrington, Honolulu; Bert Tregallas, Sacramento; R. E. Mielow, Spokane; L. W. Warford, Seattle; Charles Briggs, Tacoma.

One of the most important works of the convention was the resolution passed by the church department at the conclusion of addresses by several prominent ministers on the value of publicity in church work based upon actual results.

## CHURCH RESOLUTION

The resolution follows:  
"Whereas, the church department of the Pacific Coast Advertising Men's convention has considered among other forms of church publicity, newspaper advertising;

"Be it resolved, that it is our conviction that a wider publicity of the work and message of the church would be highly advantageous to the church and to the general public and should be entered into as far as possible by all the churches; and that we believe such wider publicity would be gladly welcomed by the reading public and would be advantageous to the newspapers themselves;

"And be it further resolved that we pledge our own co-operation with and support of the newspapers in seeking to make provisions for such larger advertising and publicity and that we set their support and co-operation in working with us."

The resolution was signed by Rev. Godfrey W. Barney, Father F. X. Morrison and Alexander Stewart.

# Artillery Goat Is Boldly Kidnaped Batteries Form Truce on Mascot

SOMEWHERE ON THE PRESIDIO, July 26.—Why "Billy," a patriarchal goat with a wealth of beard, picks his way daintily along to martial music as the mascot of the First Battalion of California Field Artillery is a tale of long standing rivalry for his exclusive possession among Batteries A, B and C, ending in a kidnapping and a battle and an ultimate compromise whereby "Billy" became common property.

When the battalion was on the Mexican border in 1916 the goat, as the pet of Battery A, excited the jealousy and enmity of Batteries B and C, which captured the mascot and retained it under strong guard (Battery A always held that the strategy employed was against international ruling.) Until the battalion was mustered under Federal service at the Presidio Battery A tried in vain to regain possession of the mascot.

Here by a strategic move they again secured the goat. The men of Battery A left their headquarters in cases and trunks so as not to excite suspicion, and disappeared in all directions.

# PATENTS GIVEN ON SCHOOL LANDS

SACRAMENTO, July 26.—Two hundred and fifty owners of indemnity school lands, aggregating 18,549.25 acres in the Sacramento land district, embracing the territory east of the Sacramento and San Joaquin rivers and north of Madera and Merced counties, can now obtain a state patent and sell their lands if they desire.

Surveyor General W. S. Kingsbury has received from Clay Tallman, commissioner of the general land office at Washington, documents giving the right to the state to issue patents to the owners. Practically the Federal government deeds the lands involved to the state.

Settlers on these lands, who have been unable to sell any part of their holdings because the state could not give them patents, can now turn over their certificates of purchase, all they received when they bought the property years ago from the state, and receive patents.

In some cases the lands have been thus held for twenty-five years. The land was acquired by these settlers for \$1.25 an acre in most cases. Today some of these lands are worth from \$100 to \$300 an acre.

All these lands no taxes have been paid on these "lieu lands."

## TO FREE BERKMAN

ATLANTA, Ga., July 26.—Alexander Berkman, noted anarchist, is on his way to New York to be released on bail, it became known here today. Berkman was taken from the Federal prison Thursday by Deputy U. S. marshals and will reach New York about 10 o'clock today.

tions, only to assemble at a given spot close to Battery C stables where the goat was confined without guard. When all were assembled they marched toward Battery C stables. The men of Battery C on duty at the stables thought the Battery A conspirators were their own men coming to a room and paid no attention. The stable raiders smuggled the goat off to their own quarters, and not until Battery A was firmly entrenched did Batteries B and C become aware of the kidnapping and storm the encampment of their successful rivals. Troops of the assaulting batteries swarmed through the windows but could not dislodge Battery A, much less regain the goat.

An officer ended the strife, and in a peace council it was agreed to present "Billy" as the mascot of the entire battalion.

Now the three batteries are the best of friends and Battery A cemented the entente cordiale by inviting the men of Batteries B and C to an entertainment in which an exhibition of tumbling and acrobatics was given by the boys and a piano recital by Private Hoffmeister were features.

# CAN AFFORD TO VOTE FOR BONDS

Alameda county's bonded indebtedness is nothing and its assessed valuation is \$227,000,000, therefore it can afford to vote the bonds to be submitted to the people on August 14, next, according to the supporters of the issue for the bascule bridge, the new county hospital and the county infirmary. This information is set forth in a statement issued in connection with the campaign of education being conducted to inform the public fully as to the uses to which the bond issue will be put. The statement follows:

## ASSESSED VALUATION.

"The assessed valuation of the property in the county of Alameda is approximately \$227,000,000. The county of Alameda has no bonded debt whatsoever. The cities of Oakland, Alameda and Berkeley have bonded debts but the county has none.

"County Hospital.—This building will be located in the city of Oakland on the California College site, recently purchased by the board of supervisors. The estimate of one million dollars for construction and equipment includes buildings to house patients, the number of 250 beds, nurses' home, a domestic building which would contain dining rooms for patients, nurses and employees, store room and receiving offices, a power plant and laundry and pathological building, a garage for four machines and arcades connecting the various buildings. In the estimated cost is included \$100,000 for equipment of the hospital.

## THE PROPOSAL.

"It is proposed to construct the administration building, the domestic building, the nurses' home and the power plant. These buildings are part of a hospital of 400 beds. This is a move in the direction of economy because the County Hospital will ultimately have to be extended to accommodate more than 250 patients of all kinds, and if the structures serving the whole institution are not at the beginning made large enough to care for future needs, they would have to be scraped in a comparatively few years, to the financial injury of the county.

"The money expended on the construction of the County Hospital will be under the direction and supervision of the County Institution's Commission, consisting of Dr. Aurelia Rinehardt, S. J. Donohue, Harrison S. Robinson, Dr. R. J. Legge, Frank A. Leach and Dr. O. D. Hamlin. It is not the intention of the commission to provide for the expenditure of any moneys voted for the purpose of building the County Hospital in advance of the immediate needs, and the bonds if voted will not be sold except as the money is required.

"The total amount of bonds proposed to be voted for the County Hospital is one million dollars."

## WARNED BY SIGNS

WASHINGTON, July 26.—The path of the crook who comes to Washington seeking to reap a harvest from the war crowds is becoming increasingly thorny. Next little metal signs greet the visitor's eye on every hand. They tell him how to foil the prowlers. A walk down Pennsylvania avenue is as good as a correspondence school course in sleuthing.

"Distrust strangers. The most courteous stranger may be a clever crook," proclaims one of the "Don't display your money in the open," shouts another in starting white lettering. Others say: "Don't close your home for the summer without asking a neighbor to keep an eye on you." "The police must be notified of the 'Cocaine' habit of them." "The policeman is your best friend." "Watch everything that goes on around you. Observation is the best safeguard."

## EMBASSY IS BUSY

WASHINGTON, July 26.—The Russian embassy on Sixteenth street near Scott circle, has been converted into a big office building by Boris Bakmeteff, the Russian ambassador. The former stronghold of Romanoff diplomacy and magnificence has been turned into a great business office for the transaction of the American share of the new republic's business.

The library, where once the clinking of tea cups could be heard, will become a workshop for the new envoy and the clatter of the typewriters will supersede the cups. There is even a new office boy to greet visitors, though the same messenger now rushes names in to officials and guarantees audiences within ten minutes. An hour's wait was nothing at all under the old system.

## POLICE FUNERAL

SAN FRANCISCO, July 26.—The funeral of Detective Sergeant Joseph Redmond, who died suddenly while visiting at the home of a friend on Monday night, was held this morning from his home, 1430 Page street. Full military honors were accorded the officer by members of the police department and the escort was composed largely of brother officers from the detective bureau in uniform. Lieutenant Arthur Lane, acting captain of detectives, was in command of a company of thirty-six men which acted as the funeral escort from the house to St. Ignace church where a requiem high mass was celebrated. The interment was at Holy Cross cemetery.

## HOME RULE RALLY

DUBLIN, July 26.—The Irish home rule convention at Trinity College put down to reality the following the initial session on Wednesday, when an organization was effected. The selection of Sir Horace Plunkett as chairman of the convention seems to give general satisfaction.

# SOLDIERS SAVE GIRL FROM WAVES

Rescued from drowning by several soldiers stationed at Fort Barry, Marin county, Olive Dickerson, 15-year-old school girl, awaits today the coming of her guardian and friend, Mrs. Hazel Small, 5132 Coronado avenue. Mrs. Small will meet the girl at the San Francisco Detention hospital, where she was taken after her experience.

The girl left her home Tuesday morning, ostensibly to meet several older people at one of the Alameda beaches. Instead of picknicking with them as planned, she crossed the bay to Fort Barry, where she met a soldier whom she claims is named Private Sylvester Kauch. Leaving him in the afternoon, according to her story, she went to San Francisco and slept that night at the Pine Arts palace at the Exposition site. Wednesday morning, according to her story, she went to Fort Barry, but was unable to find Kauch.

"I am tired of living with Mrs. Small," the girl said. "There are too many children. And I don't want to go to school." She said that her father had left her in Mrs. Small's care just before he died. Her wish was to attend an industrial school.

Mrs. Hazel Small today showed great interest in the fate of her ward. "I shall go over to see Olive today," she said. "I am very sorry she made these statements. We have done all in our power for the girl. My two little boys have always gotten along very well with her, and I thought things were harmonious. It is decidedly not true that Olive's father died and left her in my care."

"Indeed, I believe that her father is alive today. For five years she lived at the F. M. Smith cottages, where many such cases are cared for. It was from there that we took her into our household ten months ago. She doesn't like school and is restless. We have done everything in our power for her. Confirmation of my story may be obtained from Miss Benson, at the Fourth and Cottage avenues, who acted as 'cottage mother' to Olive while she was in the care of the good people there. Indeed, Olive's somewhat wild statement, I believe, to be the result of her hysterical condition rather than any ill-will she may possibly bear me."

# 9830 Women of Alameda County Pledge Food Aid

Alameda county women, 9830 strong, have pledged themselves to "Get Behind Hoover," to observe one meatless and one wheatless day each week, and to do all that they can to support the plans for the conservation of food.

The campaign, which was completed in three weeks' time in the midst of the summer vacation, was directed by the Alameda County Woman's Committee, of which Mrs. A. E. Carter is chairman with Mrs. Charles Hines, chairman of the precinct work. With the returns fully made, word has come to California that in all probability the food campaign will be ordered done over again, although no definite official communications have been received.

The headquarters which the Alameda County Woman's Committee and the Oakland unit occupy together on Fourteenth street will be open every day from 10 to 4 with several representatives in charge to explain and direct the work. A series of lectures and meetings is being arranged for this. The committee which has been named to take charge of the headquarters, Mrs. Samuel S. Gray, Mrs. James Hamilton, Mrs. John Ferrie, Mrs. Helen Sweet Arreda and Mrs. Russell Lowry.

Plans are being made to form canning and drying centers throughout the county.

# \$892,500 VALUE OF COPRA CARGOES

Due to the increase in the price of copra from \$25 to \$150 a ton the total value of copra shipments arriving in Oakland this month from the South Seas will be \$892,500, although under the former prices the average monthly local consignment of the dried coconut meat of about 3000 tons was valued at only \$105,000. Copra is not scarce, the supply arriving here this month being unusually large, but the demand for war and other purposes is increasing more rapidly than the supply and this has brought prices up with a jump.

One of the largest copra cargoes brought here for some time was unloaded at the Long Wharf with the arrival of the motor ship Bayard on July 25. It is valued at \$250,000. The copra islands, another ship, the Kokohead, is expected in port within a few days with 1350 tons of copra. These shipments are consigned to Berkeley oil and soap manufacturers. Copra is a necessary ingredient for explosives which contain glycerine and also supplies a fat used in making condensed food for soldiers.

## WAR DEP'T

Protects our boys in all military camps from disease germs by adding Chlorinated Lime to all drinking water.

You, too, should protect your home against disease germs by using daily Acme Lime in your garbage can, sink, toilet bowl, slop bowl, etc. Kills germs and destroys odors instantly. Acme is one of the most effective and economical disinfectants known.

At your grocer or druggist, 15c. Refuse all substitutes. Insist on Acme, which is fresher and stronger.

# Acme Lime

### WHY SOCIETY WOMEN WASH THEIR OWN HAIR

They do, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a makeshift but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home-made cantharox mixture. You can use this at a cost of about three cents a shampoo by getting some cantharox from your druggist, and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its lustre and softness will also delight you.—Advertisement.

### IT'S YOUR KIDNEYS

You have swollen feet and hands! Stiff, aching joints! Sharp-shooting, rheumatic pains! Torture! You have aching back, pain in the lower abdomen, difficulty when urinating! Look out! These are danger signals. Trouble is with your kidneys. Uric acid poisoning in one form or another, has set in. It may lead to dropsy or fatal Bright's disease if not checked.

Get some GOLD MEDAL Haaslem Oil Capsules immediately. They are an old preparation, used all over the world for centuries, combining natural healing and herbs, well-known to physicians and used by thousands in their daily practice. The Capsules are not an experimental "make-shift" "patent medicine," or "salt," whose effect is only temporary. They are a standard remedy, and act naturally, gently and quickly. But when you go to the druggist, insist on getting the pure, Original Haaslem Oil in Capsules. Be sure the name GOLD MEDAL is on the box, three size, and thus protect yourself against counterfeit.—Advertisement.

### GOING AWAY?

No extra charge to take The TRIBUNE with you. Phone Lake-side 6000, Circulation Dept.

### PHYSICIANS TRAIN FOR WORK ABROAD

Preparing to give up private practice so that America may have full call on their skill, five Alameda and Contra Costa county physicians are doing intensive training for the peculiar services demanded by men in time of war. The physicians, who have joined the San Francisco Army Base Hospital, include: Dr. C. A. Willis, superintendent of the Alameda County Hospital; Dr. Warren B. Allen, Berkeley; Dr. C. L. Abbott, Richmond; Dr. Samuel R. Downing, Berkeley; Dr. J. K. Hamilton, Alameda. The first three are surgeons, while the last two named will be medical officers.

Dr. Joseph H. Catton, who was responsible for the organization's formation, is teaching staff there, and is today one of the transbay city's prominent doctors. He will be known as assistant director of the army base hospital.

When the hospital staff reaches France, Dr. Charles G. Levison, another San Francisco physician, will have charge of the unit. Major W. A. Bryant, medical reserve corps, will have charge of the department of oral and plastic surgery, while Dr. Leo Elloesser is assistant director in charge of surgery. Dr. H. A. Tuckey will assume full charge of anesthesia during operations.

### DICTATOR TO R.Y.

WASHINGTON, July 25.—Samuel H. Hays, president of the Chicago and Great Western railroad, today was appointed railway dictator of the United States. He is designated by Secretary of War Baker as director-general of railways under the chief engineer of the army. He will have charge of all railway forces of the army in this country, France and elsewhere. As such he will have supervision of the purchase of all railway material. His offices will be in Washington, where until recently he has been acting as adviser to General Black of the engineer division.

### OCHS, ASHAMED OF GERMAN NAME, WOULD CHANGE IT

PHILADELPHIA, July 26.—Desiring to relieve his sons of a Teutonic appellation which he believes "will arouse hostility and prove an unnecessary burden in their future social, commercial and professional relations," Geo. W. Ochs, former publisher of the Philadelphia Public Ledger, today petitioned the courts to change his name to George W. Ochs Oakes.

"The name 'Ochs' says the petition, is purely Germanic in origin and spelling.

"Your petitioner believes that by reason of the atrocious crimes of the German armies and the impotence of the German nation for the subjugation of Poland, a German name for many years to come, will be obnoxious in this country."

Ochs is a native-born American of parents who came to this country when minors.

### WOMEN WRITERS TO RAISE UNIT

With Oakland Boy Scouts as sponsors, the Northern California League of American-born women has started a campaign here to raise funds for the purchase of a motor ambulance, by the sale of the books of L. Hyatt Mack, well known California author, who has contributed to the publication cost alone copies of her works for that purpose. Frank Erickson of troop 5 of the Boy Scouts and Kenneth Malmgren of troop 2 are selling the books in Oakland where copies are prominently displayed. They are co-operating with transbay scouts who are selling the books there. These books give a real touch of the "Wild and Woolly West" both in contents and cover and meet with a ready sale at the Salinas Road where they were displayed by a squad of San Francisco Boy Scouts.

## The "button" tread on Fisk Tires gives you real anti-skid protection ALL ways

ADDITIONAL safety against side slipping is supplied by a rib of rubber extending around the whole tread, on both sides. Fisk Non-Skids are the only automobile tires that furnish such complete protection.

### This Graphic Illustration Explains Fisk Non-Skid Features—Protection From Every Direction

Fig. 1 and 5—the outside ribs that form uninterrupted counters against side slipping or skidding.  
Fig. 2 and 4—outside row of buttons and second supporting rib which, with Fig. 3, the master button, furnishes a perfect resistance against slipping or skidding in any direction.

Buy Fisk Tires and get this real protection. Price and mileage are right. You can't buy greater dollar-for-dollar value in tire quality—and no other tire on the market offers such safety.

# MANY ALIENS TO BE DRAWN BY U.S. ARMY

By Webb Miller,

(United Press Staff Correspondent.)

WASHINGTON, D. C., July 26.—The United States today is negotiating with the allies to legalize drafting many thousands of thousands of aliens in this country to fight under the American flag.

Before the time for a second levy the necessary abrogations of treaties and action by Congress will bring all under the draft law.

In every section of the nation an outcry against the present law as applied to non-citizens is rising. Already it has reached Congress and forced action.

The McCumber resolution to draft aliens is today before a sub-committee of the Senate Foreign Relations Committee. Under this resolution aliens may be drawn into the army, or deported upon refusal to serve.

SOME TREATIES IN WAY.

The War Department has approved the resolution, but the State Department has pointed out diplomatic objections in specific treaties with a half dozen countries preventing drafting their citizens into the United States military service.

At the Italian embassy today it was stated diplomatic negotiations were under way to bring 150,000 Italians of military age in the United States under the provisions of the draft. At present neither the Italian or American governments can lay hands upon them.

Each of the allied countries is expected to acquiesce in the speedy nullification of any old obstructing treaties and agreements. But whether they do or not, officials here declare that Congress may act—that laws supersede the treaties. Nations at war with Germany are hardly expected to object to drafting of their subjects here.

ALIEN FEELING LAX.

The mail of the War Department is flooded with protests from cities with a large alien population. They claim that nearly every American will be taken in the first levy from certain districts with heavy alien populations. In Chicago, one-fourth of the entire registration is exempt as aliens. In one district of 2,923 registration, 2,108 are exempt as aliens, leaving only 815 Americans from which to draw 377 soldiers.

Many other northern states have big alien percentages. In Massachusetts 29 per cent of the entire population are non-citizens; Illinois has 15 per cent; Michigan 19 per cent; Connecticut 27 per cent; California 24 per cent; and Arizona 40 per cent.

The Southern states have the lowest alien percentages. North and South Carolina have only .008 per cent of non-citizens.

In the cities and states with heavy alien population the burden is shifted heavily upon the American citizens, while the foreigners are left to pre-empt the work of the fighting man.

22 INTERNATIONAL NEWS SERVICE

LEADS WIRE TO TRIBUNE

WASHINGTON, July 26.—Every enlisted man will be credited to his state when the second increment of the new national army is drawn, according to announcement made today at the office of Provost Marshal General Crowder. While the strength of the second increment is still a matter of conjecture, it is believed that it will be less than 500,000 because of the difficulty in equipping the men and the necessary time to train them. Moreover, the bill under which the men were drafted into service provides only for a "million men under arms." There is, however, a provision for the drafting of the men to keep up the strength of the million under arms. It is believed that the War Department will arrange the second increment so that there will still be room to call at least 200,000 men under the draft act and perhaps 100,000 to complete the ranks of the first two increments.

FRAME EASY METHOD.

WASHINGTON, July 26.—While local selection boards were at work today assembling men of the selective draft forces, officials of the provost marshal general's office began preparing a new publication to furnish registered men with an easy method of keeping track of their status in their districts. The new list will be issued with cross reference by number between the red ink and drawing numbers. It will be possible for those supplied with the lists to inform any man almost instantly in what order he was drawn when he furnishes his red ink number.

Registrants who expect to be called in the first draft now must watch the selection board headquarters so as to know immediately when their names are posted. The date when they are called to report for physical examination will be shown at the same time.

The question of dependents will not come up in any way until a report on a man's physical condition shows him to be suitable for military service.

## DUTCH FOR ALLIES

NEW YORK, July 26.—America's entrance into the world war swung Dutch sentiment to the side of the allies in a most pronounced fashion. Louis Raemaekers, credited throughout Europe with being the cartoonist of the war, and said to be the one civilian most cordially hated by German officialdom, made this statement today. He has arrived in the United States to draw a series of cartoons carrying fresh indictments of the Kaiser and German frightfulness.

"It is all foolishness to say that the Dutch people were ever pro-German," said the artist. "We live so close to the Germans that we know them too well. In Holland we say that a German is a 'mof'—a nobody."

## GIRL IN MYSTERY

HAVANA, July 26.—As much mystery as ever surrounds the whereabouts of Ruth Armstrong, the missing Youngstown, Ohio, girl. The secret police have at last leaved the identity of the young woman who figured several nights ago in an escape from an automobile in which she was riding with a male companion. She bears little resemblance to the missing girl.

## 2 SUNK, 2 TAKEN

AMSTERDAM, July 26.—Two German vessels have been sunk and two German steamers have been taken to England by British destroyers, according to the correspondent of the Amsterdam Telegraaf at Texel, one of the Frisian Islands. A German steamship which had been damaged, the correspondent adds has arrived at Den Helder.

## Local Labor to Have First Chance in Cantonment Work

First Contract for Palo Alto Camp Is Let; College Tangle Delays

PALO ALTO, July 26.—Captain W. G. Fleischhauer, constructing quartermaster at Camp Fremont, has received orders by wire from Washington to instruct contractors that only labor from this vicinity is to be employed in the building of the camp until the supply is completely exhausted. Union wages are to be paid and union hours are to be observed. There is, however, to be no closed shop.

Captain Fleischhauer said that troops will begin to arrive on August 15. The sewers and the water system will have been laid by that time, and while the work of building the camp will not have been completed, enough will have been done to permit occupancy by the troops. Today is mobilization day in the various states from which troops will be sent here to be trained.

CO-EDS ONLY BAR.

There will be over 6,000 wooden buildings erected in the camp in addition to the many thousands of tents that will be necessary to house the soldiers. The mess halls, kitchens and all headquarters buildings will be wooden structures. As soon as the army authorities can straighten out the difficulty with Stanford University the actual construction work on the camp will begin. The proximity of one end of the camp to the university with its several hundred co-eds was said by one army officer yesterday to be more dangerous to the army than to the university, but he scouted the idea that the university would suffer in any way.

## FIRST CASUALTY IN SAMMY CAMP

WITH THE AMERICAN FORCES IN FRANCE, July 25.—The first field casualty among the American forces occurred today. A soldier became too inquisitive in regard to the construction of a live French bomb among the supplies brought to camp for training purposes. He extracted the safety pin in some manner and very soon thereafter a loud explosion occurred. Fortunately for the soldier the bomb did not contain a charge of full battle strength, or he would have been blown to pieces. As it was he escaped with the loss of his right hand.

At every vantage point near the camp men in khaki and men in blue could be seen today drilling, marching and digging side by side. Field maneuvers were in progress at several places, while from more secluded spots came the rattle of machine guns. Musketry practice was being held and on every hand was activity which was most impressive.

The French and American soldiers seem to enjoy their association thoroughly. The French frankly admire the aptitude of their enthusiastic pupils.

It is believed that the French will be quite frequent in the future. In order that American officers may acquaint themselves with conditions of life on the front line in its various phases, including routine as well as the actual working out of offensive and defensive plans.

# EVIDENCE IN TRIAL OF SCOTT

SAN FRANCISCO, July 26.—The taking of evidence in the trial of Joseph J. Scott was completed at noon today with the offering of some rebuttal testimony on the part of Assistant United States Attorney M. A. Thomas and it is expected that by tomorrow noon the question of the guilt or innocence of the former internal revenue collector will be submitted to the jury.

Scott's defense was not ended without sensation which ranged from a discussion of the inner workings of political affairs, to charges of embezzlement made by Scott against Glen Jones of the Chicago Internal Revenue office. Jones is a nephew of Internal Revenue Commissioner W. H. Osborn.

ACCUSES JONES. Scott declared that Jones, while acting as field agent in the revenue service, had wrongfully taken \$700 from the local revenue office. Scott said when he asked Assistant United States Attorney Thomas to prosecute Jones, Jones refused to issue a warrant "because he did not want to embarrass Commissioner Osborn."

OTHER CHARGE. That he had held up returns of banks for special bankers' taxes in approximately 100 cases, many of which were subject to a 50 per cent penalty "because he did not wish to antagonize the banks," was a "residential" charge made by Scott against Jones. Jones is a resident of Washington in July, 1916, and had been directed to do everything possible to assist the Wilson campaign, and that Commissioner Osborn had cognized of this action for political reasons and had told him that he had personally secured the return made by J. P. Morgan & Co. of New York and was holding it for similar reasons in his private life, are other assertions made by Scott.

## WANTED — A FLAG

Will some one please donate a flag? Local exception board number seven has been ordered to do so. The board, which is composed of J. M. Chandler, chairman, and also the electric light and water, the board is now looking for some one who will donate a flag and a suitable flagpole. American flag to be used above the headquarters.

# Local Merchants Adopt U. S. Plans to Conserve

## Elimination of Unjust Demands by Customer, Is Feature of Program

The smaller as well as the larger merchants of Oakland in retail lines today, at a meeting in the Hotel Oakland, decided to approve the conservation schedule of the War Economy Commission adopted in Washington, July 12, as a portion of the national program of defense. The full details of the schedule will be outlined in full page advertisements to be printed in THE TRIBUNE before August 1, and concerns every household in Alameda county.

The main features of the conservation plan include the elimination of unjust demands upon merchants by customers; the refusal to accept the return of C. O. D. packages from habitual "returners"; the refusal to accept goods which have been returned more than 48 hours by customers; the refusal to accept the following articles under any circumstances: Mattresses and bedding, garments altered for customers, shoes altered or whose but-tocks have been re-cut, combs, hair ornaments, rubber goods sundries, women's hats altered to fit, goods cut from pieces and merchandise made to wear and not carried in stock.

Birthday presents, wedding presents and gifts of all kinds are in future not to be exchanged save for merchandise. One delivery a day is to be made at an hour to be determined by the individual merchant. Customers are to be urged wherever possible to take home their own packages, and an entire system of conservation of energy, waste and material is to be inaugurated. The pledge given today by the individual merchants included the fact that Dry Goods Association, a large percentage of the members of the county.

## The Weather

# CALL FOR BATTERY E EXPECTED

With the receipt yesterday of orders for a federal inspection tonight of Battery E, the new unit of California Field Artillery, to be commanded by Chief of Police Walter J. Petersen, the members of the organization are holding themselves in readiness for an immediate call to active service. The order emanating from Washington directs Captain Burt, United States army, to inspect the new command at once and make an immediate report. According to officers of the battery the order signifies an early call to federal service.

The following order was issued yesterday by Chief of Police Walter J. Petersen:

"To all officers and men, Battery E, California Field Artillery:

"You are hereby ordered to report at the National Guard armory at 8 o'clock Thursday evening, July 26, for the purpose of federal inspection, pursuant to orders received today from headquarters, Western Division.

"All previous excuses from attendance at drill and leaves of absence are hereby revoked and officers and men will hold themselves in readiness for immediate call to active service. It would be advisable for all members of the battery to make whatever arrangements sound sense and judgment dictate. Orders to leave the city may come at any moment.

"By order:

(Signed) W. J. PETERSEN,  
"Provisional Captain."

Only fifteen vacancies remain in the organization, the full strength being 120 men and five officers. It is expected that soon today the battery will be at full strength.

## PRESS IS PRAISED

WASHINGTON, July 26.—In a letter to the wire news service today, Provost Marshal General Crowder complimented them for their "remarkable feat" in sending out the draft numbers on lottery day so accurately.

The letter in each case says:

"My attention has been called to the remarkable feat accomplished by your service on the draft day in transmitting throughout the country information as to each number drawn almost simultaneously with the drawing of each particular number.

"From a comparison of your press story numbers with the numbers on the official list, I am impressed by the accuracy with which the task was accomplished. The work of your association in this particular but bears out the alertness and reliability which has characterized your service in covering the entire registration and draft."

## FIRE IS MYSTERY

SYDNEY, C. B., July 26.—Officials of the Dominion Coal Company today said that they had been unable to determine the cause of the explosion in the company's mine at New Waterford yesterday which caused the death of 10 men. When the explosion occurred 250 men were underground. Rescue parties today were making as possible, having in view the possibility that some of the men imprisoned might yet be saved.

## AIRMAN IN DESERT

SAN BERNARDINO, July 26.—Believed to be on the desert coast here with four companions, officers began a search today for G. P. Mills, a Los Angeles aviation instructor, who, with George Ellerman and three others, started July 15 to drive to Denver in an automobile.

## "BOTTLE" IS DEAD

SAWTELLE, July 26.—"Bottle" Smith, 77, known by that name because of his habit of searching the soldiers' home grounds for empty whisky bottles which he is said to have traded for full ones, blew out his brains here today. Despondency is ascribed as the cause.

## SEARCH FOR BODY

SAN FRANCISCO, July 26.—Search is being made by the police today for the body of a well-dressed man, which Miss Hattie Slater of 800 Bush street reported she and three girl friends pulled to the surface with their fishing lines off the Bay Shore pier, near the Six-Mile House yesterday. She said the body sank at once as if weighted. Miss Slater refused to give the names of her companions.

# Player & Players

## PAIR OF QUEENS

While it is true that poker players do not ordinarily rave over a pair of queens, because it is not the most wonderful hand in the world, it is also true that a pair of queens at the Orpheum looks like a good large winning hand for the management, and without a particle of exaggeration in the statement either. Ever since last Sunday when the Urban farce was waited into the farce comedy pace again with "A Pair of Queens" as the motif for the music the gentle theatergoer has been found very much in evidence at the Orpheum.

Those who love fast funny stuff gets his in "A Pair of Queens" for there is never a dull moment in the proceedings and the pace is a hot one throughout. No body is given much time to think. It is all action and comedy and mightier speed than a hot steam locomotive. One complication falls after another until there is a grand snarl and tangle to unravel, and it is made and made it with much merriment and much joy for the crowds.

The Ten Singing Girls have scored a tremendous hit with their grand opera selections, and modern ballads. The admirers of Mlle. Chalfont and Edith Allan, the two sopranos of remarkable voices, are being converted to the merits of their respective favorites.

Interest is keen in the forthcoming engagement of Henry Shumner and Leo Miller, with the Urban Players in a big production of "Potash & Perlmutter" that opens next Sunday. One complication appears by permission of the Kolb & Dill management, with whom he has been touring in "The High Cost of Living" as a character comedian.

## MUSICAL COMEDY IS WINNER AT COLUMBIA

"The Very Idea," a new musical comedy written and produced by Leo Jacobs and featuring the irrepressible comedian Will King, in the leading role, is proving a delight to throngs of theatergoers who are attending the performances this week and making the Columbia theater on the great evening.

"The Very Idea" is a bright up-to-the-minute musical melange with plenty of new comedy, bright costumes, elaborate scenic effects and artistic performing. King has innumerable chances in the main role of "The Little American" and is ably assisted by Reese Gardner, Will Hayes, Laura Vall, Clair Starr, Jack Wise and Teddy La Due.

The story is that of an English Hebrew whose son falls to follow out the family tradition and falls in love with a girl of the middle class whom he prefers to marry instead of the titled heiress that is picked out by his father. The show reveals in amusing complications.

Director Herman King has arranged a large and useful musical program for the show and the work of his jazz band is far above the ordinary.

One of the special attractions this week is Sylvia Taffee, a clever little child actress who is taking the house by storm.

## LITTLE AMERICAN WINS AT T. & D.

Mary Pickford in "The Little American" is unsurpassed. She will do special work this evening when the second Country Store is held, and on Friday evening when the Chorus Girls have their weekly prize contest.

"The Little American" is a wonderful, tremendously exciting, the scenes are rapidly moving ones, taking in the sinking of the Lusitania, the attack on the Chateau, the aeroplane combats, the assaults of the submarine, and the horrible, ruthless, bloodthirsty savagery of the enemy. Realistically staged, vividly photographed, powerfully enacted, "The Little American" is a wonderful, powerful production, a masterpiece to the remarkable creative art of Cecil De Mille.

Richard Sterling, well known actor of the Alcazar Stock Company, delivered a stirring oration embracing part of President Wilson's thrilling speech of April 2, when he declared and defined America's principles and reasons for participation in the great war.

## BESSIE LOVE FILMS FIRST CIRCUS SHOW

Bessie Love makes her first appearance on the screen as a bareback rider in her latest play, "The Sawdust Ring," now playing at the Franklin Theater until Saturday. It is a delightful story of the circus, and Bessie Love is said to make the hit of her career as the little girl, threatened with the poorhouse, who runs away and becomes a member of the huge family that live under the "big top."

The settings are realistic, for Bessie and her company traveled with a circus around through California in order to film the principal scenes. Every detail, from the wardrobe tent to the main tent with its three rings, is shown. Among those in the large cast supporting the star are Harold Goodwin, Daisy Dean and Alfred Hollingsworth.

## MIDGETS MAKING THEATRICAL HISTORY

Singer's Midgets, the Lilliputians who have made new theatrical history in Oakland, breaking all records at the Pantheons, and playing to bigger audiences than any feature has ever played to in Oakland before, will close their phenomenal engagement here Saturday night. As a special concession to the crowds—and especially the children—who have been turned away at every performance for lack of room, Leo Singer has consented to play to two matinees Saturday, in addition to the regular two night shows.

Two performances will be given as on Sunday, at 11 and 2 o'clock. The first act of the kind ever to be retained a second week at the Oakland Pantheons—and perhaps the best, has been the "The Little Rich Kid." It is seldom that a play is written where the child has not only the lead, but also the heartiest speaking part to play, and tiny eleven-year-old Eugenia not only speaks the lines, but acts the part of the broken hearted child in the manner of a true artist.

Schooler and Dickinson, a wonderfully artistic little musical team offer an act that is like a breath of springtime, so refreshing new to the children's dogs are the talk of the children of Oakland. The Keystone comedy and the War Weekly round out the bill.

## POPULAR PLAY DRAWS TO BISHOP PLAYHOUSE

With little Eugenia Clinchard in the title role, the Bishop Playhouse is playing to capacity that delightful play for young and old, "The Poor Little Rich Kid." It is seldom that a play is written where the child has not only the lead, but also the heartiest speaking part to play, and tiny eleven-year-old Eugenia not only speaks the lines, but acts the part of the broken hearted child in the manner of a true artist.

Her support is of course, the best that can be brought together for stock production and includes Virginia Brissac, J. Anthony Smythe, Harry Garrity, Hugh Metcalfe, Ben Erway, Smith Davies, Will Lloyd, George F. Webster, George Knowlton, Dan O'Rourke, Harold Hutchinson, Orval Humphreys, Russell Medcraft, Minnie Stinson, Ivey Risley, Vera Morse, Charles Langford, M. J. Hall, Marion Devendorf, Nellie Leach and Emmet Sheridan.

Rehearsals are under way for an elaborate presentation of the much discussed "The Eternal Magdalene" in which Virginia Brissac will make her farewell appearance in Oakland prior to leaving for the East.

## "UNCLE TOM'S CABIN" IS HIPPODROME SUCCESS

The Hippodrome Stock Company, playing "Uncle Tom's Cabin," is this week proving to eastbay theatergoers that the world's most famous play is still one of the world's most popular productions. The human appeal that made the book famous over night, runs strongly throughout the play, and it is an appeal that finds an answer in everyone.

Miss Virginia Thornton and Roscoe Karns, handling the roles of Eliza and St. Claire respectively, and Charles King, as Uncle Tom, make an excellent trio, well supported by the rest of the cast. Miss Virginia Stock as Topsy, who "just grew" and who exhibits a penchant for stealing every gaudy article within reach, does clever comedy work, as does Frank Donner as Maria, the lawyer.

Howard and Margaret, Miss Virginia M. Bluel and Miss Bonita Semmonds are new members of the cast who are doing well. In Frank Cooley, Rupert Drum, Gladys Kingsbury, Claston Smith and Roy Haug the big production shows its favorite roles.

## CONQUEST OF CANAAN THRILLS AT KINEMA

Booth Tarkington might have been writing about almost any of us in his well known and popular novel, "The Conquest of Canaan" which is at the Kinema today and the rest of the week, for it is the story of a young man who fought a bitter struggle against the political powers and small town prejudices of a central state village, whose wiles were just about ran things according to the precedent that had been the rule of the town.

Edith Talliferro plays the leading part and makes a most fascinating heroine who later serves as an inspiration to the young attorney. The action is fast and filled with excitement and rises to a tense climax that holds the interest to the very end when it means either his defeat and utter ruin or his rise to the highest position the town can offer.

Another feature, so called because it is so much better than the usual run of comedies, is the "Rough House," featuring the jocular Fatty Arbuckle, who sails in and causes more merriment than it seems possible to unravel in a week. It is a turmoil of joy for fair and one that will send one home with a smile that ought to last a week. Finally the Kinema program includes that famous trip with Burton Holmes up Mount Hood.

## "SWIMMING WEATHER" DRAWS MANY TO IDORA

It's swimming weather! The big open-air pool and the palm-shaded inland beach at Idora is a mecca for the mermaids and mermen and the kiddies. From the hour of opening at 10 a. m. and until long past sundown the bathers enjoy beach and pool.

But other attractions hold the crowds. Special features of the week include the tree dance, the night, the concert by the mandolin players—boys and girls, under the direction of Prof. Charles F. Graeber in the amphitheater Saturday afternoon, the first annual Bay Cities juvenile championships Sunday afternoon.

Saturday's concert will interest many. Comprising the stringed orchestra are ninety boys and girls. The concert will be free to park visitors and will begin promptly at 2:30 o'clock.

## RECRUITING AIDED

CHICAGO, July 26.—Ten thousand marines in jackets, "Sammies" in khaki, Highlanders in kilts and drafted men in civilian clothes—marched for three hours through the loop district today to stimulate recruiting.

The jackies with their band of 250 pieces, played "Marching Through Georgia" and when they rested, the Highlanders bapped "Tippety."

As the parade swung along, detachments of the G. A. R., United Spanish Veterans, Oak Park Home Guards, Boy Scouts and a section of Red Cross nurses swung into line.

## AT WORK ON HIGHWAY

RENO, Nev., July 26.—Officers of Pike's Peak Ocean to Ocean Highway Association yesterday completed inspection of the Nevada-Utah portion of the transcontinental highway. Today they will go through the Feather River Canyon to San Francisco where on July 30 the final route will be determined. The association will ask Congress for aid in making a hard-surfaced route from the Atlantic to the Pacific.

# What Lux is Not

## Cake? No Powder? No transparent flakes!

Lux is not a cake of soap, not a chipped soap, not a soap powder, but pure transparent flakes.

Even in looks it is not like anything you have ever seen.

Why soap for fine laundering should be in flakes

Soap should never be rubbed directly on fine fabrics, for the rubbing weakens and will eventually destroy the fabric.

In flake form, Lux melts the moment you throw it into hot water, and makes an instant lather which dissolves dirt without rubbing. Lux is so completely soluble that not the slightest trace of soap is left in the garment to yellow it. *Lux can't injure anything that water alone won't injure.*

Nothing like it ever before been made

The process by which Lux is made is used only for Lux—the very machinery which "flakes" the soap is patented and controlled by the manufacturers of Lux.

Get a package from your grocer or department store today and try it yourself

Lever Bros. Co., Cambridge, Mass.

# LUX

Won't shrink woollens!  
Won't turn silks yellow!  
Won't injure even chiffons!

## WHY FARMERS GET LESS AND THE PUBLIC PAYS MORE.

that their people derive great pleasure from them. The Republican, however, describes Fresno's experience in going after a swimming pool as having an Arkansas Traveler obstacle, just as in Visalia. When summer arrives it is too late to build it and in the winter it is forgotten.—**Visalia Times**

There is Russia, where within a week a vote more galling than that of autocracy has been thrown off, the bank clerks of Petrograd having risen on the rungs of their stools and belted their coats at the nearest nail. "Be free like Americans; take off your coats!" cried the Kershensky of these scribes, and not only all the bank clerks but all the other clerks in the Russian capital have taken the great step. Imagine the happiness of the office worker, hitherto in chains of wool, as he swings his pen to write out a receipt for taxes paid by N. Romanoff to the republic. We are informed that Russian suspenders are violent in color. This points out another possible stroke for freedom. Suspenders, of all forms of subjugation, are the vilest. It is hard to understand how the Russian people, even under Ivan the Terrible, have stood for them. Americans make belts, sleeve protectors and fancy striped shirts. May we not sell a couple of hundred millions of each to the new democrats? Let the American manufacturer offer something novel in belts, such as genuine Russian leather, found only on the steppes of South America.—New York Sun.

The attitude of Norway's government is extraordinary. Commissioners coming here to represent it in negotiations for food will not find it easy to prove that they deserve any consideration. They can get no grain from Canada. They should have none of what is produced in the United States, as long as Norway fails to resent Germany's attacks upon her merchant marine. For a long time she has been the victim of a one-sided war. If she had shown evidence of manliness and decent self-respect, and had become a war ally of her friends here and in Europe, she might reasonably ask for a part of the food that is so spare. One question now has become two: how to control exports, and how much power should be exercised to the disadvantage of Norway.—New York Times.

## RELIEF WORK WASTE WILL BE REMEDIED

Assurance that all moneys derived from entertainments purposed to benefit any charity or other relief work will go to the object in question is aimed at by the plan now being discussed by persons active in such work in Oakland and other bay cities. The plan has its inception in Berkeley, where the Collegiate Alumnae, under the direction of the Mobilized Women's Organizations, has started a survey of organizations which are engaged in relief work of any sort.

Proponents of the plan emphasize its importance by citing the fact that there are many cases where the public has been induced to give its patronage to so-called benefits, the objects of which, while worthy in every way, receive a very small percentage of the receipts. In many of these cases the benefits were arranged by persons who make a business of such things and who take for their own services a percentage from 15 to 25 per cent of the gross receipts.

**TO REMEDY METHODS.**  
In other cases, the persons directing the benefits have been prompted by no desire for personal gain to the contrary, frequently contributing of their own money as well as their time, but these same persons have been so inexperienced that the expenses have reached more than the receipts, and the public has paid the bill without benefiting the cause for which it contributed. It is to eliminate both of these factors that the organization proposed is intended.

The first step to be taken is to make a survey of all organizations engaged in relief work of any kind, whether within the city, State or nation, or abroad. Reports will be made and chambers of commerce will be asked to take action.

Moreover, from this organization to the State Council of Defense has gone a communication asking that the mayors of the various cities be requested to appoint a sub-committee, with the suggestion that in its personnel shall be the chief of police and several other representative men, beside delegates from the recognized patriotic women's organizations, whose consent must be obtained before public relief benefits may be given.

It is also suggested that the expenses be limited to a certain percentage of the proceeds.

## NEEDED ON FARMS

SACRAMENTO, July 25.—Steps to have high schools, agricultural colleges and similar institutions postpone the opening of their fall school terms until October 1 may be taken by the State Council of Defense as a result of recommendations made by George H. Hecke, state horticultural commissioner, in a communication to the state council Hecke says that it is imperative that high school and college students be utilized to the fullest capacity in order to keep the farm labor problem from becoming serious and that the students will be needed for the harvesting of crops until late in September.

## GUN FOR NAVY

WASHINGTON, July 25.—Favorable action by the House Appropriations Committee is expected on the bill appropriating \$50,000 to develop for naval purposes the gun invented by E. L. Price of San Francisco. Navy Department officials believe the gun will revolutionize naval warfare, and favorable report on the bill has been made by the department. Details of the weapon are being kept secret, but it is known the Washington navy yard is now working on a model of the gun.

## AD MEN WITH UNANIMOUS VOICE VOTE OUR MAYOR HANDSOMEST ON COAST

Mayor John L. Davie, who holds the undisputed title of being the best-dressed mayor of Oakland, and who, despite his efforts to escape, is continually being made the victim of publicity, has had another new role thrust upon him by the Pacific Coast Advertising Men's Association convention just ended, which made him an involuntary candidate for honors as the handsomest chief executive on the coast.

This Apollo Belvedere status was one of the side issues of the convention and was the cause of keen competition by visiting delegates. That pulchritudinous honors were about to be shoved at Oakland's municipal head was apparent from the first day when the Los Angeles delegation admitted that Mayor Davie had their mayor beaten by a considerable margin. Other delegations, while disposed to question the wisdom of this choice at the outset, finally withdrew their opposition until the unsolicited honor was pressed upon Mayor Davie's brow by unanimous hands.

**UNUSUAL DISTINCTION.**  
The selection of Mayor Davie for this honor by the advertising men of the coast is ranked as a most unusual distinction. Already the sartorial despair of local Beau Brummels whose judgment in matters of dress is being daily regulated by the standards of mayoralty, cannot the mayor now against his will and without the lifting of a finger, is forced to become the living exponent of masculine bloom and manly attraction. No formal recognition of the fact was made by the convention. As one delegate expressed it, the realization of the mayor's super-handsoneness "just grew on the convention like the splendor of an expostulation." Honor was his by general acclaim.

"All that is necessary is to look at Mayor Davie," said Mose Mossesohn of the Portland Ad. Club, "to know that he is the handsomest mayor on the coast. We thought we had a fine looking man, but much as we hate to surrender the honor we are forced to admit that Oakland's chief executive is the chief d'œuvre of the publicity banquet. He is imposing in build, with a gracefully flowing moustache that represents comfort and stream-line design and carries himself like a Caesar. For straight, unadorned beauty, Mayor Davie has our man backed off the map."

**NO CONTEST AT ALL.**  
"It could hardly be called a contest. It was over so quickly," declared Douglas A. Lindley of the Sacramento Ad. Club. "There were some of us who favored our own mayor and others strong for Mayor Houlihan of Stockton. But when it came to show-down, we simply had to give the honor to Mayor Davie. He was by far the best looking and most representative appearing man at the convention. He looks every inch a mayor."

John A. Henry of Stockton, who backed Houlihan for the many bloom honors of the convention, backed out when he caught a glimpse of Oakland's chief executive in action. "By George, he looks like a Bret Harte character," said Henry. "Of course I have never

seen a Bret Harte character, but the mayor is of the same style of rugged beauty that was famous in the days of '49. There is no question but there are some fine looking mayors along the coast, but Mayor Davie is so far ahead of the rest that there is no comparison. It is like a breath from early California history to see him."

**IS QUALIFICATION.**  
R. C. Steepie of the Spokane Ad. Club declared the mayor's pulchritude would entitle him to membership in any advertising club at the convention without further qualification. "He is the best looking man I've seen in Oakland," he said, "and any time he wants to join the Spokane club he can do so." Miss Florence E. Brown, a feminine Portland advertiser, saw the mayor in his Billy Sunday effect of shirt sleeves and bland smile, on the occasion of his reception to the delegates at the city hall. It quite bowled her over. "Perfectly stunning," she said. "He is a regular Francis X. Bushman out of the movies. With his coat off he looked every inch a mayor. Of course it was unusual to see a mayor in his shirt sleeves welcoming a delegation of ladies, but somehow it seemed to go with his appearance. He is the finest looking mayor I have ever seen. Oakland is to be congratulated."

## TO ARREST BROKER FOR HINDU PLOT

SAN FRANCISCO, July 26.—That George Roedik, vice-president and general manager of Hackfeld & Co. of Honolulu, wholesale merchandise and shipping brokers and alleged to be the Kaiser's agent in the Hawaiian Islands, will be arrested on the arrival today of the steamship Moana. He is accused of complicity in the conspiracy to foment a revolution among the Hindu against Great Britain rule in India.

Roedik is coming to California as a passenger and according to officials of the Department of Justice, will not know until his arrival of the accusation against him. According to the Federal officers here Roedik was the distributing agent and purchasing representative of the Kaiser in Honolulu and directed the affairs of the plotters there.

Another arrest in connection with the indictments recently returned is made in Utah when Munshi Ram was taken into custody and was brought to San Francisco this morning.

## CHILDREN FIGHT DEPUTY AS HE ARRESTS FATHER

SAN FRANCISCO, July 26.—Four youngsters ranging in ages from six to ten years old, but up a desperate battle against a deputy marshal who today arrested A. Borti at 929 Evans avenue in the Bayview district. Borti was accused of having threatened two revenue officers who had gone to the home to inspect the wine cellar of A. Borti, who is the proprietor of the place.

The officers reported to the marshal and the deputy who was sent out, attempting to arrest Borti, was set upon by the children. They tore at his clothes and hands and it was not until he had succeeded in rushing his prisoner down the stairs that he could get away from them. Later United States Commissioner Francis Krull released him on his own recognizance.

## GIVEN \$100,000

LOS ANGELES, July 26.—Donald M. Murphy, a member of the Pasadena ambulance corps stationed in Allentown, Pa., won a fortune today as war beckoned for him across the Atlantic. Young Murphy was notified that he is one of six heirs to an office building in Detroit which has just been sold for \$600,000. Mrs. Murphy left today for the east to bid her husband goodbye when he sails soon, and to look after his \$100,000 share in the estate.

## WATERFRONT RECEIPTS LEAP AHEAD

An increase of more than 72 per cent during the last year in the receipts of the city of Oakland from waterfront sources is shown in the annual report of Wharfinger W. J. Masterson just filed with the city council. The total revenue for the fiscal year ending June 30, 1917, was \$95,841.63, while the amount for the previous year was \$55,238.56. For the year ending June 30, 1915, the receipts were only \$24,322.75.

The revenue for the year just closed came from the following sources: Dockage, \$28,095.37; tolls, \$51,839.94; wharfage, \$1,180; water, \$297.96; rentals, \$7,503; leases and franchises, \$7,642.75; miscellaneous, \$232.66.

## JUNE IS HIGHEST

The highest receipts for any one month were received during June of this year, \$10,495.34, and the lowest were for the month of October, \$4,849.01. The dockage increased steadily from \$1,495.87 for July, 1916, to \$3,411.58 for June, 1917, while the tolls have arisen during the same time from \$3,110.75 to \$6,094.66.

The receipts, according to wharf units, were taken in as follows: Key Route Basin, \$2,257.80; Long Wharf and "White Bear" District, \$1,312.10; Moore & Scott and Howard Company, \$36,159.98; Quay Wall, \$6,252.79; Clay to Washington, \$8,926.33; Washington to Broadway, \$7,954.95; Broadway to Franklin, \$775.75; Franklin to Webster, \$5,095.03; Webster to Harrison, \$37.10; Harrison to Alce, \$428.45; Santa Fe Railway, \$1,119.05; Sunset Lumber Company, \$11,277.75; Fifth Avenue property, \$1,750; East Oakland property, \$1,092.75; Livingston street wharf, \$1,231.50; Dennison to Park, \$2,150.30.

## LOOK FOR CONVICT

Carl Otto, an escaped convict from San Quentin, is being sought by the local police. Otto made his escape from the prison Tuesday night. He was employed on the night shift at the prison ice plant and it is supposed that to have made his escape through the ventilators which lead out over the walls from the butcher shop. He made his escape through the ventilators, the prison authorities think that Otto followed along the shore until past the prison limits and then either to have taken a launch or to have made his get-away into the Marin hills.

## SOLDIERS KILLED

SAN PEDRO, July 26.—Charles E. Tiller and Roscoe A. Baumgartner, soldiers, are dead as the result of a collision here between a motorcycle on which they were riding and an automobile truck, which, according to the police, was on the wrong side of the street and carried but one light. H. Huroda, a Japanese, said to have been the driver of the truck, is held in the city jail. Tiller was killed instantly. Baumgartner died shortly afterward at the receiving hospital. Tiller enlisted from Hemet.

## DRIVES OVER SON

SANTA BARBARA, July 26.—Struck by an automobile truck, driven by his father, two-year-old Emil Jimenez, son of Manuel and Mrs. Jimenez, died here today of injuries received. Jimenez is said to have backed upon the child, crushing it.

## ENGINEER'S ACT SAVES LIVES OF MANY IN WRECK

BANNING, Cal., July 26.—While the bodies of two brakemen, John Ebert and H. Cromwell, lay buried today in the charred wreckage of a Southern Pacific freight train which yesterday crashed into a switch engine near Cabazon, the lives of many trainmen were saved by the quick wittedness of Engineer Christern, who, seeing the runaway train approaching, backed his switch engine on the main line and prevented the runaway crashing into a second freight train down the line.

Engineer Don Kelly and Fireman Oswald Cromwell, brother of the dead man, are in a hospital here today suffering from

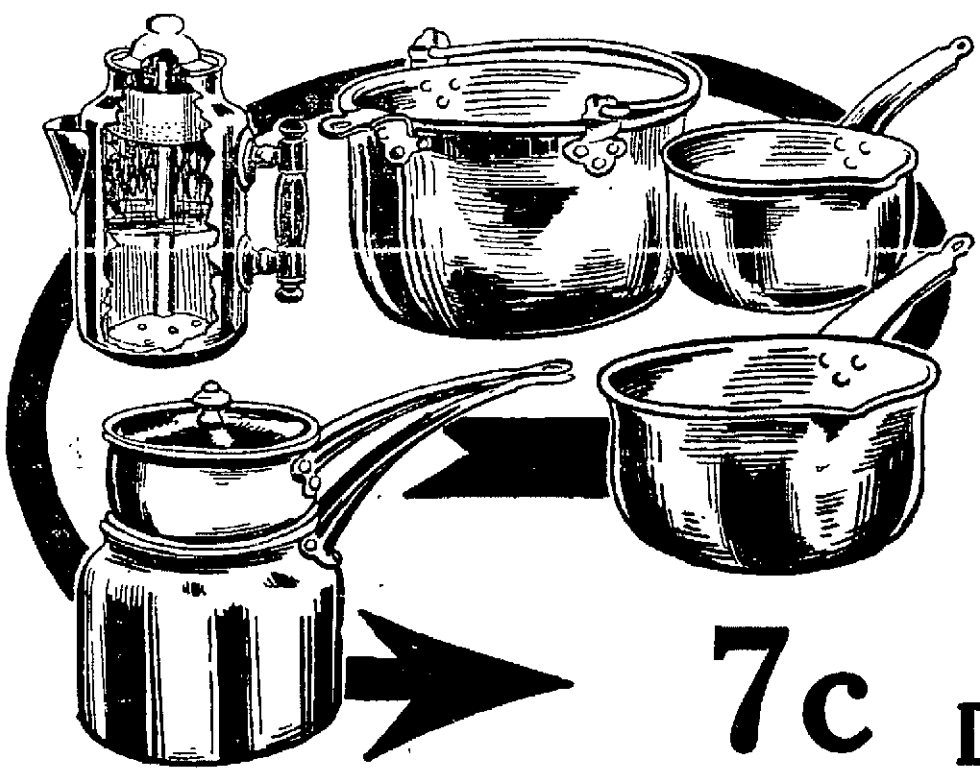

severe injuries sustained in the wreck. The flames, which immediately after the crash enveloped the oil-laden train, may have cost the lives of five hoboes who were seen on the train a short time before the accident. Fire, which destroyed the twenty cars of the train, doing \$500,000 damage, spread to a nearby fruit orchard and did considerable damage before being checked.

## PRIEST IS ACCUSED

PORTLAND, Ore., July 26.—Rev. Father Sherlock of the Tillamook Roman Catholic Church is free under \$1,000 bail today after being arrested on a charge of threatening the life of Captain S. S. Johnson, of the Tenth Company Coast Artillery. The priest is said to have made disloyal remarks, and when urged to stop by Captain Johnson, a member of his church threatened the officer's life.

## FROM PAINTED DESERT COME MINER SOLDIERS

LOS ANGELES, July 26.—John A. Moore, mining engineer, hero of Peter B. Kyne's novel, Saint John, came out of Death Valley into Los Angeles today with word that prospectors following the golden mirage of the desert are coming out to join Uncle Sam's war forces. "I haven't seen a newspaper for seven weeks," said Moore, "and many there do not even know war has been declared, but soon they'll be out. I came out to learn if my number had been drawn, and a trail of burros' hoofs soon will be headed toward civilization, for there are no slackers out in God's country."

# Leonard Victory Is Old Story of a Better Big Man

PHILADELPHIA, July 26.—[J]ohnny Kilbane, knocked out by lightweight champion Johnny Leonard in the third round here last night, enters the ring again he will do so against the better judgment of Jimmy Dunne, his manager and life-long friend. Dunne announced some time ago that Kilbane would retire. Today he said: "There was nothing to do but throw in the towel. I never saw Johnny fight the way he did last night. He was badly beaten. If I'd sent him out again it would have been to have him take a worse beating than a knockout and I didn't want to see him beaten up." This is his last fight. I'll never send him into the ring again. As far as I am concerned, Johnny is through and will retire with his title."

years old, Eddie Collins was thirty, and he made a festive occasion of it just as Cheney did. Columbia's best-known graduate battled 667 against the Indians, getting a single and a double, and it was his sacrifice fly in the fifth inning that defeated the Duncmen.

down in the book as one had to see light and to pick as a winner against most of the boys in his class around the bay. Harry Pelsinger will probably get a lightweight title from Kid Lavigne when Walcott was welter champion, but was outpointed. Kibane's defeat quashes his ambitions toward the high-weight ranks.

Incidentally in his eight last fights, Leonard has scored seven knockouts.

the boys in his class around the bay. Harry Pelsinger will probably get a

## Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulberry coconut oil for this purpose and entirely greaseless. It's very cheap and wears the most expensive soap or anything else all to pieces. You can get this at any drug store and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in about a teaspoonful of all that is required. It makes an abundance of rich creamy lather, cleanses thoroughly and rinses out easily. The hair dries quickly and evenly and is soft, fresh looking, bright, fluffy and easy to handle. Besides it loosens and takes out every particle of dust dirt and dandruff. — advertisement

## R. S. LOVETT DENIES LITTLE DUE U. S. RELIEF MONOPOLY ON LIBERTY LOAN

NEW YORK, July 26.—Substantial agreement between the American Red Cross and the Federal Council of Allied War Charities on all points except the distribution in Europe of relief of supplies sent to particular beneficiaries was announced today. Judge Robert S. Lovett representing the Red Cross declared that while the wish of the Red Cross that other organizations "shall continue independently as auxiliary relief work in Europe" is the desire that they shall make no attempt to compete with the American Red Cross as to their operations. It is not true, Judge Lovett said, that the American Red Cross seeks to monopolize relief work in Europe. It is the desire of the society that all relief organizations that have a record for efficiency and economy should continue their work.

## SECRET IS BARED

KINGMAN, Ariz., July 26.—Part of the secret buried in the destruction of the Mojave desert which gave up the body of an unidentified man believed to have been murdered near Lucio's, San Bernardino county, California, was said today to have been disclosed today when Sheriff J. N. Cochran declared here that the dead man probably is Charles Barr of Chloride, Ariz.

## RESPECT UNIFORM

NEW YORK, July 26.—Cabaret and concert hall managers were warned by United States Attorney Caffer today that the federal government would no longer tolerate the wearing of army or navy uniforms by chorus men and other performers. The warning also applies to clothing stores which to advertise which have hired men and clad them in the uniforms of major generals and rear-admirals to strut about their places. Complaints that swindlers dressed in uniforms had been operating were responsible for the action.

## POTATOES, ONIONS

SACRAMENTO, July 26.—Information received by the State Council of Defense is to the effect that the potato and onion situation is improving somewhat. From Stockton comes information to the effect that growers are now getting from \$2.20 to \$2.35 a hundred for potatoes of superior quality. Regarding the onions, the potatoes had been plowed under because of the low price prevailing. It was stated today by Publicity Director Owens that no evidence of such plowing under had been received.

## RUSS ARE GREETED

KANSAS CITY, July 26.—The Russian envoys were greeted on their arrival today by Mayor Edwards and representatives of the Chamber of Commerce. Later they were escorted through the streets by a regiment of national guardsmen.

## BURBANK IS SAFE

SANTA ROSA, July 26.—Luther Burbank, the plant wizard who has been suffering from inflammation of the appendix was reported completely out of danger today and his physician announced he would be able to leave his bed tomorrow.

WASHINGTON, July 26.—Of the balance due on the liberty loan in the three installments yet to be paid the government will receive only about 15 to 16 per cent of approximately \$215,000,000 to \$25,000,000 in actual cash. The entire remainder already has been paid either in cash or upon treasury certificates of indebtedness which are payable in lieu of cash.

Of the two billion dollars realized from the sale of the bonds \$1,350,000,000 was paid in cash and certificates June 30, leaving a balance due by subscribers of \$650,000,000. This sum however will not all be paid in cash as there are outstanding approximately \$500,000,000 of certificates issued in anticipation of the next issue which may be converted into the bonds. The consensus of opinion is that the entire outstanding issues of certificates will be converted into bonds, leaving in actual cash balance due to the government of approximately \$150,000,000. The balance due on the loan must be paid in three installments of twenty per cent July 30, thirty per cent August 15 and thirty per cent August 30.

## LAUNDRY PICNIC

Eight hundred members of the employees association of laundry workers left Fortieth and Shafter station on the Oakland and Antioch by special train at 10 o'clock this morning to celebrate their annual picnic and outing at Pinehurst. The program of the day will be in charge of Father Huebsch and will consist of games, races, amusements and dancing for which prizes will be distributed. The committee of arrangements for the picnic is W. A. Burgess, chairman, Misses McGrath and Murphy, Messrs L. W. Jenkins, J. C. Lynch, R. Salsberg.

Send for sworn testimonials to B. W. Hall, 2925 Olive St., St. Louis, Mo. Sold by druggists.—advertisement

# Suit-Buyer YOU Carry the Overhead Burden!

If a clothing store has high, downstairs rent, you, Mr. Suit-Buyer, pay that rent. If a clothing store has expensive furnishings and a salary list for a large office force, you are standing these expenses when you buy a suit. Every time you pay \$25 for a suit in one of these stores, you are paying \$15 for clothes and \$10 for flubdub.

Foreman & Clark are running a clothing store, not an art museum. We put all our money into suits, not into high rent and decorations. We don't waste our time fixing up fancy window displays but we do plan how we can save you 60 per cent on woollens which we bought a year ago before the tremendous jump in prices.

## Foreman & Clark Suits Have the \$25 Look, the \$25 Fit, the \$25 Quality at \$15

We started out years ago with the belief that when the American young man goes to buy a suit, he wants a suit, not a show. He wants quality fabric, real style, correctness of cut. And these are what we aimed to give. So we took upstairs, daylight salesrooms, where rent was low, and we cut out Oriental rugs, mahogany show-cases and oil paintings. We didn't fuss with fancy window displays. We concentrated all our money, all our brains and all our space on one thing—good suits.

## You, Young Men, Save \$10 on the Newest Styles

Our policy paid. Today we have a coast-to-coast chain of upstairs stores doing a \$3,000,000.00 business. We buy huge stocks of woollens and save by getting big reductions.

We have our own tailor shops where we make our own suits and save the middleman's profits—for you. We don't carry charge accounts; therefore our money is never tied up and we haven't a big salary list for clerks to worry our debtors—all this saves money. and all this saving enables us to offer you \$25 guaranteed all-wool, fast-color suits at \$15.

Step up to our second floor daylight salesrooms—today—NOW—and see our wonderful suit values at \$15.

## Friday (only) bargains

## Half-price remnant day Friday

Your choice of every remnant (except damask), at exactly half what it's marked. Think! This means two yards for the price of one! Friday only. Come early!

## "Vogue" says:

"The newest one-piece dresses use different materials in waist and skirt." So, why not use remnants? This big once-a-month event offers unparalleled opportunities, also, for separate skirts, waists, children's clothes, trimmings, hats, bags, fancy work, etc., etc., etc.

## Dress goods

Yes, half price on every remnant (to 6 yards long), of silks, velvets, woollens and washable stuffs. Also half price are remnants of white goods and linings—cambric, percaline, saten, etc.

## Trimmings

Embroidery and lace remnants will be half off Friday. Veiling lengths, too, as well as ribbons for bows, rosettes, bags, fancy work. Take advantage!

## Curtaining

Here's a rare chance for small windows, doors, etc.—half-price for lengths of scrim, net, Marquise, Madras, Sunfast, cretonne. Cretonne bag lengths, too. Rare bargains!
